## NEGRO RIOTERS IN CHICAGO FIRE ON TROOPS; SEVENTEEN BLACKS, 13 WHITES IN DEATH LIST

### GUARDS ARE PLACED IN COLORED SECTION

Sixty-Two Hundred Soldiers Distributed Throughout Five Big Zones

**BARRICADED NEGROES FIGHT MIXED CROWD**

Hospitals In South Side Are Filled With Wounded; Five Hundred Hurt

CHICAGO, July 31.—The death list in Chicago's four days' rioting stood at thirty today—17 negroes and 13 whites—following the death of Thomas Coppelan, 18, negro, this morning. The black belt, where most of the arson and rioting has taken place, was calm today, patrolled by 6,200 militiamen and members of the Illinois National Guard. The troops were sent to the negro district last midnight, where they were distributed throughout five zones, and were given their baptism of fire in a rain of more than 100 shots as soon as they made their appearance. They returned the fire. No casualties were reported.

Arriving in pitch dark streets in army trucks, the soldiers who had been held in armories here for two days, took their places on street corners, returning lead for lead whenever snipers attempted to fire at them. Rainfall shortly after their arrival, while making going hard, routed most of the disturbers, both white and black.

Negroes, armed with what was believed stolen arms and ammunition, fought a pitched battle with soldiers and a white mob last night.

**Fight From Barricade**

Fortified behind a walled fence around a high school yard, the negroes fired many shots at their opponents, many receiving wounds. The negroes finally dispersed.

Hospitals throughout the south side, where the negro settlements are located, have been filled to overflowing with wounded of both races. More than 500 who have been shot and injured by beatings are in hospitals, police estimated. Several hundred others received treatment at home, it was believed.

Additional plans for order and regular process of the law, as well as pleas for order were issued by public officials and leaders of both races. Mayor Thompson and Governor Lowden asserted the law must rule and that rioters will be vigorously prosecuted, while negro civic leaders urged their citizens to keep within their homes and assist from molesting the whites.

Several alleged rioters were fined in police court yesterday. Other cases were on the docket today.

**KELLY FIELD LEADS WITH HOURS IN AIR**

SAN ANTONIO, Texas, July 31.—Kelly Field, San Antonio, led all fields in the United States in "number of hours in the air," according to a statement by the director of air service.

Flyers here had planes in the air a total of 167,982 hours between January 1, 1918, and July 17, this year, the statement shows. Ellington Field, Houston, Texas, was second with 95,293 hours, and Rockwell Field, San Diego, Cal., came third with 61,659 hours and, Park Field, Memphis, Tenn., fourth, with 53,174.

### Los Angeles Girl Is Freed of Charge Quickly In New York

NEW YORK, July 31.—Miss Helen Edwards, 24, Los Angeles, was acquitted by a jury after conviction on a disorderly conduct charge, following arrest in a house of questionable reputation.

The young woman contended she had been in the city only a few hours and knew nothing of the character of the place where she was staying. She was here to buy her trousseau, she said.

The jury, returning a verdict in two minutes, added a denunciation of procedure which permitted conviction of the girl on unsupported testimony of two detectives.

### DRY MONTH SHOWS BIG DECLINE IN ROWS

Huge Reduction In Arrests at San Francisco Results From Prohibition

**ASSAULT AND BATTERY CASES GETTING FEWER**

Neighborhood Fights Almost Gone From Records; Watch Cologne Drinkers

SAN FRANCISCO, July 31.—After a month of prohibition, San Francisco finds her families more congenial, her male population less given to fighting, her autoists more careful—but with much liquor still comparatively easy of access.

During the month preceding July 1, there were 2862 arrests by San Francisco police, 928 of these being charged with drunkenness. In the first thirty days of prohibition, there were 2043 arrests, including 157 for drunkenness.

"Assault and battery cases have dropped off 95 percent, and the other petty misdemeanors have shown a similar decrease in the police courts in the first 'dry' month," William H. Nicholl, chief of the adult probation department, told the United Press.

"Neighborhood fights, which used to keep our department busy, have fallen away in frequency and family brawls, caused by excessive drinking are rapidly disappearing from our records."

"There is a serious menace at present, though, which must be met. This is the drinking of cologne, wood alcohol and other harmful ingredients by former heavy drinkers."

**Should Get Treatment.**

These people should be treated in special hospitals, for their ailment is fully as contagious as small pox in these days of scouting around for "something possessed of a kick."

While there has been a drop in arrests for drunkenness, there has been a gain in the number of arrests on charges of drug using and selling. Whether this is due to former liquor users turning to narcotics or merely to vigilance being shifted from "drunks" toward "hop heads" and "snow birds" has not been definitely established as yet.

Automobile accidents have dropped nearly a third since the coming of the dry days, the traffic department states, while there is a big drop in the number of speeders arrested. There is a considerable reduction in other forms of accidents this month over the June record, and this is attributed largely to the lack of intoxicated persons carelessly crossing streets.

**Prohibition Wipes Out L. A. County Chain Gang Quickly**

LOS ANGELES, July 31.—It has taken just a month of prohibition to wipe out the Los Angeles chain gang and to multiply the consumption of soft drinks by thirteen.

Those were the outstanding features of the local situation today after thirty days without the sale of anything stronger than "two and three-quarters" and only limited quantities of that.

June 30 when the nation went dry, there were over fifty persons serving jail sentences for drunkenness or vagrancy, of whom forty were eligible for service on the county chain gang. But today there is no chain gang because there are only five prisoners in jail eligible for service.

### New Death Dealing Inventions Embodied In Uncle Sam's Big Sub Just Launched

R-10 being launched in East.

QUINCY, Mass., July 31.—Uncle Sam now has the very latest thing in submarines. The R-10, which has just been launched at the Fore River Shipbuilding company's yard, is the last word in undersea craft.

Everything of value that has entered into the construction of German and other undersea craft as well as many new features is embodied in the R-10, which is said to be the most formidable submarine now afloat. During the war many death-dealing inventions were developed in connection with under water fighting and many of these have been used in the new craft.

The boat is said to be the most deadly and efficient craft of its kind ever constructed. It was designed for both offensive and defensive work. It has a big cruising radius and is as near perfect as such craft can be made. It is the largest submarine in the American navy.

**Last Word In Undersea Craft Said to Be Most Efficient Ever Constructed**

CHICAGO, July 31.—Chicago's street car and elevated railway strike cannot end before Saturday, in the view of officials of the striking union and of the operating companies today. Hope that it will likely end by midnight, Friday, was seen in a decision of President W. D. Mahon of the International Carmen's Union.

He will submit a referendum vote to the striking employees, to determine whether they will abide by the will of an admitted minority of so called radicals who were alleged to have forced the strike of cooler heads within the union. Voting will begin at 8 a. m. tomorrow.

The proposition of the referendum vote was made by Governor Lowden, who issued a statement saying he believed the wages and working conditions provided in the compromise fair.

"I appeal to every member to realize and appreciate the situation," Mahon wrote in an open letter. "This proposition of a compromise wage of 65 to 67 cents an hour and an eight hour day, if not accepted by Friday night, will leave us with no proposition at all."

Mahon was told the most serious objection to the compromise, the clause requiring all runs to be completed in fourteen hours, will be adjusted by the state public utilities commission.

While officials parleyed, Chicagoans continued to walk or ride in automobiles and makeshift hacks.

### CABINET TO HELP CUT COST OF LIVING

President Much Interested In Reports on Probe of Packers

**PROFITEERING BLAMED BY RAILROAD WORKERS**

Surplus Army Food May Be Sold to Public Through U. S. Parcels Post

WASHINGTON, July 31.—Developments in the food situation continued to come rapidly in Washington late today. From official sources there were indications that the demand for action to reduce living costs would be answered quickly. Among the late developments of the day were: Director General of Railroads Hines revealed that he has been conferring with railroad shophmen concerning wage increases to meet the increasing cost of living.

Secretary Frank Morrison of the American Federation of Labor, said radicalism is finding a fertile field. Senator Myers of Montana in the senate declared that inflated currency is one cause of high prices and urged reducing the amount of money in circulation.

WASHINGTON, July 31.—"Deep and careful consideration" is being given by President Wilson to the request of the Brotherhood of Locomotive Engineers that he take immediate action toward reducing the cost of living. This was stated authoritatively at the White House today.

One of the first steps to be taken by President Wilson will probably be to lay the whole vital matter before his cabinet for consideration. The next regular meeting of the cabinet is next Tuesday, but it was believed a special meeting might be called. The president, it was stated at the White House today, has not yet decided on any definite action.

The president, it is known, is tremendously interested in reports by the Federal Trade Commission on its investigation of the packers. Friends of the Kenyon bill to regulate the packers, drawn after publication of these reports, will have the support of the president, advocates of the measure declare.

**Resolution by Wood**

A resolution drawn by Rep. Wood is pending in the house, asking Wilson what additional authority he needs to bring down prices. Action on this is expected soon.

Sale to the public through the postal service of the army's surplus food stores, now in progress, will result in only a temporary drop in living costs, according to economic experts here today. Therefore, placing of this food on the market will not check the campaign, rapidly gathering momentum in the capital to permanently reduce prices, it was indicated.

The various investigations of industries here are attracting widespread attention, judging from the number of letters from all parts of the country received by chairmen of the committees.

Scope of the investigation appeared broadened today by introduction of two resolutions by Representative Igou, Missouri, directing the Federal

(Continued on page two)

### ROBINSON WILL BUILD FIFTEEN NEW HOUSES

Fifteen five-room houses are to be built in the block bounded by Lacy, Sixth, Fifth and Garfield streets.

The project is under the direction of P. A. Robinson, well known realty operator and builder of this city. The construction of the cottages has been contracted to Thomas Fowler, who, when previously a resident here, built Clune's theater.

Robinson owns the entire block, excepting a lot at the corner of Sixth and Lacy, which this week went to Tarver Montgomery in a trade. Robinson has owned the property only a few weeks.

"We are going to start building right away," said Robinson this morning, "and we will keep at it until the fifteen houses are finished. I will put the houses on the market as the building progresses."

### LOS ANGELES TO BUY SURPLUS ARMY FOOD

LOS ANGELES, July 31.—Los Angeles has joined the list of cities buying surplus army food. City representatives have ordered two carloads of bacon, two carloads of sugar and one carload of flour at the government sale of surplus supplies. The goods will be retailed in Los Angeles under city supervision.

If the demand is good and the plan proves a success, more foodstuffs probably will be bought later. The zone supply officers here were empowered to sell a surplus of sugar and flour which is stored in Los Angeles warehouses. The purchase will be made through army headquarters at San Francisco but delivery will be from stocks held by the local zone supply officers.

### PACKERS' PROSECUTION IN ENGLAND DENIED

WASHINGTON, July 31.—The federal trade commission today denied that it had been in communication with officials of the British government with regard to prosecution of American meat packers in England. This denial was in the form of a communication to the Senate in response to a resolution by Senator Sherman directing the commission to make known what correspondence it has had with the British government regarding export trade in meat. The report incidentally disclosed alleged details of the operations of the great American packers in foreign countries, especially in Great Britain.

### VILLA FORCE WHIPPED BY CARRANZA CAVALRY

GALVESTON, Tex., July 31.—Forty Villistas were killed, eleven taken prisoners and many wounded in a battle between Carranza cavalry and Villistas under the personal command of Villa near Las Vegas on the state line between Durango and Chihuahua, Mexico, yesterday. This information was contained in an official cablegram from Mexico City to the Mexican consul here.

### Chicago's Railway Strike, Officials Declare, Cannot Be Ended Before Saturday

CHICAGO, July 31.—Chicago's street car and elevated railway strike cannot end before Saturday, in the view of officials of the striking union and of the operating companies today. Hope that it will likely end by midnight, Friday, was seen in a decision of President W. D. Mahon of the International Carmen's Union.

He will submit a referendum vote to the striking employees, to determine whether they will abide by the will of an admitted minority of so called radicals who were alleged to have forced the strike of cooler heads within the union. Voting will begin at 8 a. m. tomorrow.

The proposition of the referendum vote was made by Governor Lowden, who issued a statement saying he believed the wages and working conditions provided in the compromise fair.

"I appeal to every member to realize and appreciate the situation," Mahon wrote in an open letter. "This proposition of a compromise wage of 65 to 67 cents an hour and an eight hour day, if not accepted by Friday night, will leave us with no proposition at all."

Mahon was told the most serious objection to the compromise, the clause requiring all runs to be completed in fourteen hours, will be adjusted by the state public utilities commission.

While officials parleyed, Chicagoans continued to walk or ride in automobiles and makeshift hacks.

### President Opposed to U. S. Taking German Indemnity

WASHINGTON, July 31.—President Wilson is opposed to having the United States share in any indemnities paid by Germany, Bernard M. Baruch, a member of the economic commission of the peace conference told the senate foreign relations committee today.

Putting into operation the principle of "open covenants of peace openly arrived at," the committee smashed precedents and considered the peace treaty at a session wide open to newspapermen and the public. Heretofore all treaties have been discussed in secret.

No final decision has yet been reached on whether the United States will get any of the twenty billion marks to be paid by Germany by May 1, 1920, under the reparations clauses to the treaty, Baruch said.

"I think it is a matter to be determined by the president," said Baruch.

"By the president alone, or by the president and congress?" asked Senator Knox.

"Well, I'll amend that by saying it's a matter for determination, "Baruch said.

### Universal Training Urged By Measures In Congress

WASHINGTON, July 31.—Universal military service and naval training is provided in bills introduced in congress today by Senator Chamberlain of Oregon and Representative Kahn of California.

The bills provide that every male citizen between the ages of 18 and 20 must take six months' training either in the army or navy, unless he has been in service six months, or is physically unfit. The bill also creates a reserve army to be composed of all men who served during the war, for a period of five years, and all those under universal training for ten years after their training.

A similar naval reserve is established and both reserves are subject to immediate call in case the president declares an emergency exists. The bill also creates machinery for continuance of the draft system for determination of exemptions.

### CHINESE BOYCOTT IS SPREAD TO AMERICA

SAN FRANCISCO, July 31.—The Chinese boycott against Japanese as a result of the Shantung award has spread from the orient to the United States. The young Chinese association's membership in California is everywhere, boycotting Japanese merchants, following a series of talks by Chinese students of the University of California.

### NEW L. A. STEEL PLANT WILL COST \$1,750,000

LOS ANGELES, Cal., July 31.—One and three-quarters million dollars will be invested by the Southern California Iron & Steel Company in a new plant to be erected here, President A. C. Denman announced today.

Work on the plant will start immediately. It will comprise seven reinforced concrete and steel-framed, galvanized iron buildings. It will take a year to finish construction.

### BULLETINS

NEW YORK, July 31.—Fifteen cars oranges and no lemons sold. Orange market 15 to 20 cents higher. Averages, \$4.12 to \$7.90. Highest price, 24 boxes California Belle, \$7.90. Weather, fair; 8 a. m. temperature, 68.

CASPER, Wyo., July 31.—Seven persons are reported drowned in terrific rains near Lander and Dubois, Wyo., on the watersheds of the national forests. A cloudburst along Horse Shoe creek, which runs through Dubois, is reported to have swept away half of the town's buildings and to have killed five persons. Two were drowned north of Lander.

SAN FRANCISCO, July 31.—Charles Willis Ward, millionaire Eureka olive grower, failed to appear in court today to press his charge that Mrs. Alice Wilson performed an illegal operation on her daughter, Alice, who, he said is his "contract wife." The case was continued until 10 o'clock tomorrow morning. Non-appearance of Ward was severely criticized by Police Judge Oppenheim.

PARIS, July 31.—General Pershing will leave for the United States September 1, it was learned today.

LOS ANGELES.—Alleging that ever since Dr. W. C. Smith's dog bit her on both legs she has been unable to support herself, Anna Boydston has sued Dr. Smith for \$5000 damages.

### Prohibition Wipes Out L. A. County Chain Gang Quickly

LOS ANGELES, July 31.—It has taken just a month of prohibition to wipe out the Los Angeles chain gang and to multiply the consumption of soft drinks by thirteen.

Those were the outstanding features of the local situation today after thirty days without the sale of anything stronger than "two and three-quarters" and only limited quantities of that.

June 30 when the nation went dry, there were over fifty persons serving jail sentences for drunkenness or vagrancy, of whom forty were eligible for service on the county chain gang. But today there is no chain gang because there are only five prisoners in jail eligible for service.

## WILSON STUDIES OIL DRILLING IN NEW SPIRIT IN PLAY TO LOWER ELKS LODGE— FOOD COST TRABUCO WILL COMMENCE W. C. JEROME

Surplus Army Supplies May  
Be Distributed Through  
Parcels Post

(Continued from page one)

Trade Commission to look into an al-  
leged scheme to increase immedi-  
ately the price of shoes, also directing  
the ways and means committee to as-  
certain whether corporations are  
making money enough to pay their  
taxes under the war revenue bill by  
raising prices.

**Profiteering Blamed**  
Profiteering is responsible for high  
costs, according to the Brotherhood of  
Locomotive Engineers. The advisory  
board of the brotherhood, sixteen  
men, headed by Warren S. Stone,  
called on President Wilson late yester-  
day. "At this time we find ourselves  
obliged to again request an increase  
in wages," Stone told Wilson. "We be-  
lieve the true remedy for the situation,  
and one that will result in lifting the  
burden under which the whole people  
are struggling, is for the government  
to take some adequate measure to re-  
duce the cost of the necessities of life  
to a figure that the present wages  
and income of the people will meet."  
"Should this not be considered feasi-  
ble, we will be forced to urge that  
those whom we represent be granted  
an increase in wages to meet the de-  
terioration of the purchasing power of  
the dollar."

In a letter to Postmaster General  
Burleson today, Assistant Secretary of  
War Crowell asked that a representa-  
tive of the postoffice department be ap-  
pointed to confer with Assistant Di-  
rector of Sales Morse of the War De-  
partment, regarding arrangement of  
details "in connection with distribu-  
tion of food supplies to the public  
through the channels of the parcel  
post."

**Postage Cost Included**  
It has been stated that the cost of  
postage, under the plan would be in-  
cluded in the price of the food.

Burleson said he would be glad to  
co-operate in the "direct to table" sale  
of the millions of dollars' worth of  
food.

Under the scheme, orders for food  
may be placed with any of the 55,000  
postmasters in the country. They will  
send the orders to the proper dis-  
tributing station and the provisions  
will be brought around to the house  
by the postman. Price lists will be  
supplied.

The postmasters will also advertise  
that the army food is for sale so the  
news may be carried into the most  
sparsely settled communities.

**Disabled Yank Taught  
Commercial Drawing  
As Heart Found Weak**

WASHINGTON, July 31.—It takes a  
great deal to stump the Federal Board  
for Vocational Education when it  
comes to finding something a disabled  
soldier, sailor, or marine can do.

"A perforated eardrum, valvular  
heart disease and mitral insufficiency"  
sound like the last words of the family  
doctor. A private in the infantry heard  
this diagnosis with a sinking feeling.  
He was a machinist, but that trade had  
to go now, and he wondered how he  
would ever live on the salary of a  
watchman. That was the only kind of  
employment he could get. The federal  
board found him with the will to carry  
on, but no way, and they provided the  
way.

It seems that he had a gift for draw-  
ing, and he was given a trial course  
in commercial design in a School of  
Industrial Arts. The trial course has  
developed into a regular term, he is  
doing so well.

IF THIN AND  
NERVOUS, TRY  
PHOSPHATE

Nothing Like Plain Bitro-Phosphate to  
Put on Firm, Healthy Flesh and  
to Increase Strength, Vigor  
and Nerve Force.

When one stops to consider the host  
of thin people who are searching con-  
tinually for some method by which they  
may increase their flesh to normal pro-  
portions by the filling out of ugly hol-  
lows, the rounding off of protruding  
noses with the attendant bloom of  
health and attractiveness, it is no won-  
der that many and varied suggestions  
along this line appear from time to time  
in public print.

While excessive thinness might be at-  
tributed to various and subtle causes in  
different individuals it is a well-known  
fact that the lack of sufficient phospho-  
rus in the human system is very largely  
responsible for this condition. Experi-  
ments on human and animals by many  
scientists have demonstrated beyond  
doubt that a body deficient in phos-  
phorus becomes nervous, sickly and  
thin. A noted author and professor in his  
book, "Chemistry and Food Nutrition,"  
published in 1918, says: "It is the amount  
of phosphorus required for the normal  
nutrition of man is seriously underesti-  
mated in many of our standard  
text books."

It seems to be well established that  
this deficiency in phosphorus may now  
be met by the use of an organic phos-  
phate known throughout English speak-  
ing countries as Bitro-Phosphate. Through  
the assimilation of this phos-  
phate by the nerve tissue the phosphorus  
normally required by nature is "soot"  
and mind. Nerve tension disappears,  
vigor and strength replace weakness and  
loses its ugly hollows and angles, be-  
coming enveloped in a glow of perfect  
health and beauty and the will and  
strength to be up and doing.

**CAUTION:** While Bitro-Phosphate is  
unsurpassed for the relief of nervousness,  
general debility, etc., those taking it who  
do not desire to put on flesh should use  
extra care in avoiding fat-producing  
foods.

Contractor Must Start Oper-  
ations Within the Next  
Four Days

The first well to go down in the  
Trabuco section for testing out the  
lower depths as to oil bearing strata  
will be started on the W. K. Robin-  
son ranch within the next four days.  
A deal for sinking the well was com-  
pleted today, with R. W. Elliott as  
the man who will handle the job.

The name of the company doing  
the prospective work is the Tepathol  
Oil Company, with Santa Ana as the  
principal place of business. The com-  
pany name is a combination of parts  
of the names of the three men who  
are organizing it, Ed Tedford, A. H.  
Paterson and Frank Holyland. Under  
the contract made with Elliott  
today, he is to start drilling opera-  
tions within four days from today.

Believing that they will develop a  
new and one of the best oil sections  
in the county, the organizers of the  
company are enthusiastic over the  
lease they have secured to 545 acres  
of land on the Robinson ranch.

The first well will be sunk at a  
point on the Robinson ranch near  
what is known as the "old well."  
Water from this well will be availa-  
ble for using in the drilling opera-  
tions.

There are a number of "croppings"  
on the ranch that indicate oil, and  
the members of the new company  
feel that they have been fortunate in  
being the first to secure lease rights  
there.

Men identified with the K. H. and  
T. Oil Company now operating west  
of Irvine, on the San Joaquin ranch,  
also have seen possibility of develop-  
ing oil there, and have secured a  
lease on 655 acres, the two leases  
covering all of Robinson's holdings  
on the Trabuco mesa.

**RETURN HOME FROM  
VISIT IN NORTH**

T. A. Murphy and wife have returned  
from a visit of several weeks in San  
Francisco, Seattle, Portland and  
Helena, Mont., Mullen and Plains, Ida-  
ho, and Bremerton, Cal. They were  
guests of Mrs. Murphy's brother, Rev.  
H. M. Morris, at Mullen, and her  
mother, Mrs. M. H. Morris, at Plains,  
and of his mother, Mrs. Margaret Mur-  
phy, at Bremerton, and his sister, Mrs.  
A. L. Sauvain. Mrs. Murphy's health  
was very much benefited by the trip.  
Mr. Murphy will return to his duties  
at the Santa Fe depot.

**PROTECT CALIFORNIA  
OIL, URGED BY PHELAN**

WASHINGTON, July 31.—Senator  
Phelan of California declared today  
that legislation should be enacted  
preventing California oil lands and  
properties from passing into foreign  
hands. The governor of California, he  
stated, should include in his call for  
an extra session the amendment of  
the corporation laws of the state to  
meet the emergency and forbid foreign-  
ers the privileges and benefits of cor-  
poration facilities.

**OWNERS TO BE GIVEN  
WIRE LINES TONIGHT**

WASHINGTON, July 31.—At mid-  
night all government controlled tele-  
phone and telegraph systems go back  
to private ownership. Postmaster  
General Burleson last night issued an  
order making effective legislation to  
return the system at midnight on the  
last day of July.

Burleson will make a report on the  
government control of the wire sys-  
tem to congress by November 1, 1919,  
he said.

**BENTON TYREMAN IS  
DEAD AT MILTON, PA.**

News has just been received here  
of the death of Benton Tyreman at  
Milton, Pa., this week. He was a cousin  
of R. J. Blee, J. W. Blee and Mrs. Tes-  
sie Bryant of this city.

Mr. Tyreman will be well remem-  
bered as a clerk in the grocery stores  
of George A. Edgar and D. L. Ander-  
son. He resided here for about twenty  
years, going to Pennsylvania five or  
six years ago to engage in farming.  
Mrs. Tyreman taught at the Delhi  
school for many years and also a num-  
ber of terms in the Diamond school.

**ARLINGTON CANNERY  
SOON TO BE REBUILT**

The Arlington cannery, near River-  
side, which was badly damaged by  
fire early Thursday morning, will re-  
sume operations in about four weeks,  
according to a statement made by Dr.  
G. E. Henry, one of the proprietors.

The boilers which furnished steam  
for the fruit cookers have been found  
in such shape they can readily be put  
in commission again; and it is ex-  
pected that by the time the peach crop  
is ready for canning the establishment  
will be in complete running order.

A large force of workmen is now  
engaged in the work of salvaging the  
greatest possible number of cans of  
packed fruit. Some 400,000 tins were  
directly in the path of the flames, and  
much of this stock, which was ready  
for shipment, will be a total loss. Not  
only did the heat of the fire cause the  
canned apricots to explode, but water  
is rapidly forming rust in the undam-  
aged tins. Fast work on the part of  
the salvaging gang, therefore, is ne-  
cessary.

It is probable, Dr. Henry says, that  
the buildings destroyed will be entirely  
rebuilt, and of course, the damaged  
machinery will have to be repaired  
and replaced. The loss caused by  
the fire will run well up to \$50,000, it  
is believed.

County Auditor Returns  
From Convention of Order  
In Atlantic City

Declaring that the determination of  
the Elks as a lodge is to place more  
stress than before on community up-  
lift and betterment of social condi-  
tions throughout the country and that  
this spirit is one of the biggest things  
resulting from the convention at At-  
lantic City, William C. Jerome, coun-  
ty auditor, is home today. Jerome is  
Past Exalted Ruler of the Santa Ana  
lodge of Elks and went to the conven-  
tion as a delegate from this city.

"It is known that one of the things  
that held many of the Elks to the  
lodge in some sections of the country  
was the spirit of hail fellow well met,"  
said Jerome. "Now that the law has  
brought changes whereby this feature  
of club life in the big cities is elimi-  
nated, the Elks are centering their  
activities on those things which will  
make the lodge a bigger factor than  
ever in the up-building of communi-  
ties and which will give members  
something to take the place of things  
relegated to the past."

The convention at Atlantic City had  
the effect of strengthening lodge ties  
more than any preceding convention.  
The Elks have made up their minds  
to do all they can, everywhere, to bet-  
ter social life.

It was brought out more than forc-  
ibly that no matter what the individ-  
ual Elk's attitude may be toward new-  
ly passed laws, the thing for every  
Elk to do is to obey the law himself  
and to do all he can to see that the  
laws are obeyed in every community."

Jerome states that there is a great  
deal of unrest in the East at the pre-  
sent time. In his opinion the working  
classes are dissatisfied with prohibi-  
tion and that in all classes this ques-  
tion is one of the vital ones engaging  
the attention of the people.

"I actually believe that in the New  
England states the question of prohibi-  
tion is of greater concern to the  
people than the League of Nations,"  
said Jerome.

The weather Jerome encountered  
was far from pleasant. He was in  
the East thirty days and it rained 21  
days during that time.

**SOUTHERN  
CALIFORNIA**

LONG BEACH, July 31.—City Com-  
missioners late this afternoon passed  
on final reading an ordinance pro-  
viding for increased salaries for the  
members of the police and fire de-  
partments. The new wage scale will  
go into effect September 1.

AVALON, July 31.—Minutely sifting  
the ashes of the former Sea Beach  
Hotel has rewarded the tireless search-  
ers with the recovery of several thou-  
sand dollars' worth of gems. Dr. A. M.  
Smith, who lost \$5000 worth of dia-  
monds, has succeeded in recovering a  
greater part of them.

LOS ANGELES, July 31.—Declared  
the rival of the far-famed "floating pal-  
aces" of the Hudson river, the luxuri-  
ous excursion pleasure vessels on the  
Great Lakes, and surpassing any ship  
of its type on the Pacific ocean, Los  
Angeles harbor will soon make room  
for the new Avalon liner, "The Spear-  
mint." The craft when remodeled will  
represent an outlay of \$1,000,000, it  
was announced yesterday by the  
Santa Catalina Island company.

REDLANDS, July 31.—This has  
been the best season in history for  
the resorts of the San Bernardino  
mountains, according to reports from  
all of the summer playgrounds. Frank  
Culver, manager of Forest Home,  
says that the resorts are doing an  
August business through July this  
year, and that August will see the  
greatest crowd in history in the  
mountains.

LOS ANGELES, July 31.—Jack  
Doyle, who put Vernon on the map  
and owned what was said to have  
been the largest saloon in the world  
until the country went dry July 1st,  
has taken up cattle ranching as a  
business. He owns a 900-acre ranch  
in Kern county, where he grazes  
8000 head of steers and carries on  
extensive agricultural activities.

PASADENA, July 31.—Mrs. Martha  
Livingston, mother of the draft evade-  
ers, Robert and Ben Livingston, yes-  
terday appeared in court here in her  
first public appearance at any of the  
legal difficulties which have beset her  
family. She came as complaining wit-  
ness in a recovery suit against her  
son-in-law, J. W. Schultz, involving  
about \$300 worth of household furni-  
ture.

RIVERSIDE, July 31.—Announce-  
ment was made today of two impor-  
tant additions to the Sherman Insti-  
tute, government school for Indians.  
In this city. The total estimated cost  
of the buildings is \$21,000. The actual  
cost to the government will be great-  
ly reduced by using school labor. It  
is believed \$900 at least will be saved  
in this manner. The new additions  
include a gymnasium and an enlarge-  
ment of the girls' dormitory.

SANTA BARBARA, July 31.—Ignace  
J. Paderewski, famous pianist and  
premier of Poland, has leased his five  
thousand-acre ranch in San Luis Obispo  
and Santa Barbara counties to the  
Petroleum Midway Company for oil  
exploitation.

When Paderewski bought the prop-  
erty several years ago it was for the  
purpose of establishing a Polish col-  
ony, according to the announcement  
at the time, but the war stopped the  
plan.

## MARINES ON CREWS OF FIGHTING SHIPS

In their service on battleships and  
cruisers, the Marines form a part of  
the ship's complement for battle,  
manning the six inch, five inch, three  
inch, and six pounder guns of the in-  
termediate and secondary batteries,  
and anti-aircraft guns.

They are trained and fully equipped  
for instant service as landing parties  
for duty on shores.

Great mobility and facilities for  
quick action are required of the  
Marines. They must be kept in readi-  
ness to move at any moment's notice  
and be prepared for service in any  
climate. They have seen service in  
Egypt, Algiers, Tripoli, Mexico, Santo  
Domingo, China, Japan, Korea, Cuba,  
Porto Rico, Panama, Nicaragua, For-  
mosa, Sumatra, Hawaii, Samoa,  
Guam, Alaska, the Philippine Islands  
and Haiti.

Drop in and have a talk with the  
Sergeant in charge at 107½ East  
Fourth street, Santa Ana.

## Baseball and General Sports

### NEWPORT BEACH BALL TEAM IS ORGANIZED

Grounds Are Being Fixed Up and Club Will Be Ready to Play Soon

NEWPORT BEACH, July 31.—A number of the baseball fans of Newport Beach got together for the first of the week and laid plans for organizing a ball team. There are quite a number of old league players in Newport Beach who are willing to get back into the game, who, with the promising young fellows that are anxious to get on the list, will form quite a formidable "combat" team, and after a few days' practice will be open for any engagements with the semi-professionals of Southern California.

Suitable grounds have been "discovered" between the old corral property and the bay, and the site is being rounded into shape so that it can be used for practice games immediately. The old horse stalls and sheds have been removed, the weeds pulled up and burned and the grounds now present a very clean and respectable appearance. The sandy spots are being dirtied over and the holes filled in, and when rounded into shape, Newport Beach will have a first-class ball diamond.

The business men of Newport Beach, appreciating the fact that some sort of amusement should be furnished to the many visitors, have generously subscribed to a fund to promote a baseball organization and fix up suitable grounds. Through Lew H. Wallace, a warm enthusiast for all forms of sports, the use of the ground was secured without cost for one year.

The movement is being promoted by William Parsons, of Vaughn's Newport Garage, and R. M. Durkee, so if there is anyone who wishes to help out a good cause, come in and hand them your "bit."

The Newport Beach baseball team will be open for games after the 1st of August, on the home grounds, but will not play any visiting games until after the summer season at the beach closes.

The personnel of the team, up to the present time, is as follows: William Parsons, Harry Green, H. B. Fleishman, Heath Schnitzer, Fred Tratt, John A. Siegel, Harry Jumper, Clem Deakins, Phil Snyder, C. T. Temple, B. D. Shafer, C. C. Paine and R. M. Durkee. A number of others have asked for a chance to make the team.

### 'Round Coast League Bases

Home runs: Sheeley, Spencer, Bees. A rally in the fifth inning netted the Oaks 7 runs and won the game from the Tigers 8 to 5.

The Senators continued their winning stride, beating the Seals, 5 to 12. The Angels won from the Beavers, 4 to 1, but Walter McCredie promises to protest because Filley, coaching, gave Bates a shove that scored the run that ruined the morale of the Portlanders and caused them to drop the game.

The Rainiers dropped another to the Bees, 6 to 2.

### CARL MAY PURCHASED TO HELP OUT YANKS

By H. C. HAMILTON  
(United Press Staff Correspondent)  
NEW YORK, July 31.—If a pennant can be won for the New York American league club this year without poisoning the other clubs of the league, the die has been cast through the purchase of Carl Mays, star of the Boston Red Sox.

It was announced that Pitchers McGraw and Russell have been sent to the Red Sox in exchange for the big right hander and in addition a large sum of money was turned over. This amount was kept secret, but it is estimated to be about \$20,000. One other player, not yet decided upon, will go to the Red Sox, but it may be taken for granted that he will be a youngster.

There is no doubt about which club got the better of the deal. It adds a first class pitcher to the Yankee staff and puts the club in a position to renew its battle for the pennant. Its sudden slide down the scale was due almost entirely to ineffective pitching.

In Russell, Ed Barrow obtained a fine right handed pitcher, but a player who had lost confidence in his ability to win for New York.

McGraw is a real recruit with scarcely any big league experience. He has been regarded as a certain comer. Mays quit the Red Sox early this month because he said he was discouraged through inability to win with the Red Sox.

### MORE HUNTERS LEAVING S. A. AFTER DEER

Changes Are Made In Some Boundaries; Lion Tracks In Creek Beds

Among the deer hunting parties leaving Santa Ana this week for points in the northern section of the state is one composed of four men from Sonoma, Cal., Sherman Emmett, William Myers, Ollie Myers and Endie Clemens and one in which are Joe Lalonde of 629 Birch street and Hugh Glenn, also of Santa Ana. The hunters were outfitted at A. E. Hawley's sporting goods store.

F. H. and E. C. Morrison left this morning for points north, deer country as their goal. Others who are en route to the hills toward the central and northern parts of the state are Geo. H. Young, J. W. Martin, Jr., Fred Dimock and William A. Clement of Santa Ana. E. A. Hunter and T. Carley of El Toro are going after bucks in the hills in the southern end of the county. The John McFadden Hardware Company outfitted the nursery.

Changes whereby most of the western Malibu territory no longer opens August first were made by altering the county boundaries so Los Angeles now takes in past Little Sycamore canyon on the sea side, as well as most of Old Bony Peak, Triunfo Pass, etc. Matthesse and Russell ranches are now all in Ventura county, however. The new line nearly touches the Guadalupe ranch at one place.

The Sespe Refuge was moved over to the Los Angeles county line and across, taking in all the Agua Blanca country, McDonald, Sewart, Black and Cobblestone mountains. However, it is plainly, and plentifully posted. A returning hunter of prospecting turn declares this territory full of "varmints" already. Lions particularly evident about the creek beds where tracks show plainly.

The Sespe Refuge is still bounded by the Sespe, South Fork and Manzanita. Deer did well there under protection, but so did lions.

Provision for transporting lawfully killed bucks into or through the closed district under affidavit, remain as last year, although opening of deer season August 15 all over the state will render their use less general.

### Watching the Scoreboard

Yesterday's hero—Terry Turner. The veteran, recently released by Cleveland singled against the Indians with the bases full and won for the Athletics, 2 to 1.

Larry Cheney walked a Cincinnati player with the bases full in the ninth and the winning run crossed in a 7 to 5 game.

The Cubs collected nine hits off Jeff Pfeffer, but were unable to score, going down under a 6 to 0 count. George Daus held the Red Sox down to a 3 to 1 defeat for the Tigers but that team was unable to win two, losing the second, 3 to 2.

The Yanks had the time of their lives beating the White Sox in a ten-inning encounter, 6 to 5, and failed to turn it the second time in the same number of frames, losing, 3 to 5.

### WILLIAMS VS. JOHNSTON.

BOSTON, July 31.—R. Norris Williams, whose brilliant tennis made him the feature player in this year's Longwood tournament, will face William Johnston, winner of the Longwood bowl in 1916, in the challenge contest today. Williams defeated Richard Harte in the final singles yesterday.

### ENJOY CAMPING TRIP IN ARROWHEAD HILLS

TALBERT, July 31.—Mr. and Mrs. Arnold Walker and daughters, Elinore and Bernice, spent several days last week on a pleasant outing in a canyon about Arrow Head Hot Springs with a party of relatives from Los Angeles and San Bernardino.

Upon leaving here Thursday morning the Walkers drove to Los Angeles after Mrs. Walker's sister and brother-in-law, Mr. and Mrs. J. C. Morton, who accompanied them on the trip and at San Bernardino they were joined by Mr. and Mrs. Charles Walker, uncle and aunt of Arnold Walker.

The party left the mountains Saturday morning, having had a most pleasant vacation.

Mr. and Mrs. Walker, after taking the Mortons home, came by way of Dominguez and took dinner with Mr. and Mrs. C. C. Hecock, Mrs. Walker's parents. They found the latter doing her own work. Mrs. Hecock's recovery from her severe injuries which for a time were expected to prove fatal, has been remarkable.

## SEBASTIAN'S DEPT. STORE 306 East Fourth St.

### NEWPORT BEACH

NEWPORT BEACH, July 31.—R. L. Schultz, of Bakersfield, has leased the property known as the corral building on Central avenue, opposite the P. E. station, and will open a garage and general machine shop in the near future. The building is being cleaned up and will be remodeled to a certain extent and machinery for doing a general mechanical business installed. Mr. Schultz, who is an experienced garage man, came here from Santa Ana, where he had been employed at the Studebaker Garage for several months, but decided to go into business for himself. He has employed C. C. Paine of Fresno, to help him. Mr. Paine recently returned from overseas service in France. He is also an experienced man in the auto and machine business.

Everett Souder, brother of local townsman, Jacob E. Souder, has made application to join Uncle Sam's navy, and went to Los Angeles yesterday to complete his examination papers. Victor Longmore, another Newport boy, and son of Thomas V. Longmore, has also joined the navy.

Rupert Franklin, manager of the Palisades Tavern, has extended an invitation to Secretary Daniels to be a guest at this hostelry during his visit to the coast. If the secretary of the navy decides to stop at the Palisades Tavern during his visit here, it will be quite a distinction for this community, and may result in the establishment of government activities here. Certain it is that Secretary Daniels will not fail to appreciate the importance of our magnificent body of water to the commercial world, and there is no better opportunity to view its great undeveloped possibilities and the beauties of its picturesque shores, than from the Palisades.

Mr. and Mrs. Everett A. White and family, accompanied by Miss Mildred McNeal, motored down from Santa Ana Tuesday evening and enjoyed a dip in the surf and a weiner bake on the beach.

City Gas Manager Frank L. Rinehart was a business visitor in Los Angeles Tuesday.

Walter A. Cornelius was down from Los Angeles Monday looking after business matters.

A nine and one-half pound baby boy was born to Mr. and Mrs. Nick Suttora on Tuesday, July 29th. Nick is a happy man, and has been passing out the cigars to all his friends since the announcement of the arrival of the new member of his family.

Mrs. A. H. Fitzpatrick went to Los Angeles the latter part of last week, where she spent the day in doing some wholesale shopping for the Newport Dry Goods Company.

Miss Hazel Huntington, of Newport Heights, who has been enjoying a two weeks' vacation from her duties at the First National Bank of Santa Ana, returned to her work Monday morning.

James W. Jeffers is assisting City Clerk Geo. P. Wilson in his work on the assessment roll at the city hall. Mrs. M. Graves and her sister, Mrs. Rock, went to Los Angeles Tuesday

evening and remained until the afternoon of the following day.

Mr. and Mrs. Daniel Ascheroff and Mrs. A. Pass, of Philadelphia, who are making a visit with friends in Santa Ana, spent Wednesday in Newport Beach as the guests of Mrs. R. J. Beardmore on Twenty-sixth street. These eastern people are very favorably impressed with Orange county, and particularly Newport Beach, being delighted with our fine climate, our unsurpassed beach and our excellent fishing.

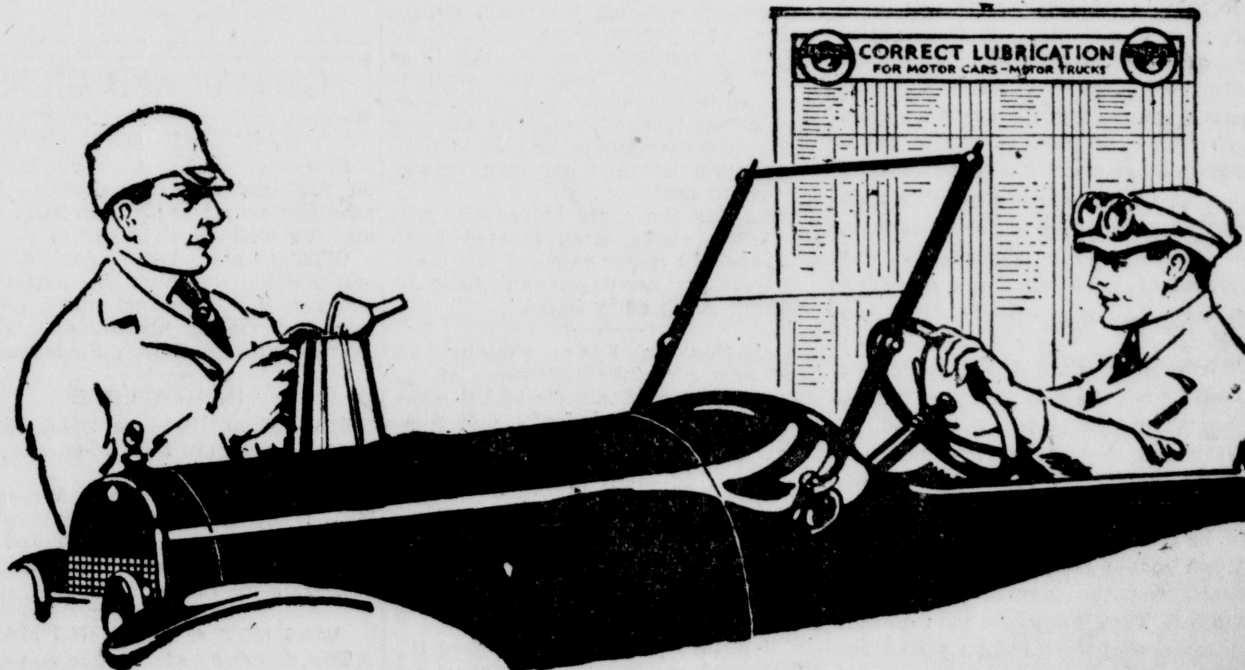

Postmaster S. R. Jumper of Balboa, entertained a number of his friends

last Wednesday, the occasion being his birthday. The boys all reported a most "exquisite" time and wished "Dad" many returns of the day and many more similar birthdays. Among the refreshments served was some of the rarest and most satisfying concoctions known to man, but, alas! it is fast becoming extinct.

not fog. It's smoke. A rock which rolled down the mountains in Stanislaus county is responsible for the great clouds of smoke pouring from local steam plants, which have been put to extra work developing electric energy for the United Railroads. The huge boulder broke from its mooring and tore a large section of the flume carrying water upon which the Sierra and San Francisco Power Company depends for its supply of electric energy. Great clouds of smoke pouring from the local plants caused much complaint for a few days.

### THE BOY AND THE FARM

Thirteen-year-old John Arthur Hinckley, heir to a \$4,000,000 estate, accustomed to all the luxury of New York and Paris, is tired of splendid hotels and steamships and automobiles and fine clothes and elegant houses. He wants to live on a farm.

He says he could be happy if he only had a pony, a dog and some rabbits, and fields and woods to ramble around in, and a stream to fish and swim in. And so his guardian has authorized the purchase of a farm, where he can get his heart's desire.

It may seem strange to many boys in the country, who wish they had the things of which John Arthur is weary. But those same boys do not know when they are well off. John Arthur has a sense of real values. He knows that a pony is better than a limousine, that a dog is better than a yacht, that a family of rabbits is better than a household of servants, that a pasture field is preferable to a city park and a "swimmin' hole" to a private sea-beach.

How many men, in middle life or old age, look back with longing to the joys of life on the farm, forgetting the hardships that went with it! And what man brought up in a rich home ever reverts with similar appreciation and sentiment to the pleasures of his early environment?

Time tells. Young John Arthur is wise beyond his years.

### MUSCLE VS. BRAINS

A cartoon in a New York paper represents a slender, intellectual-looking young man as applying for employment at a factory office, and asking about the rate of pay. The boss replies:

"Twenty dollars a week for brains; forty-two dollars for muscle."

In the same paper appear, side by side in the "Help Wanted" columns, two notices, one offering \$18 a week for a "bookkeeper with long experience," and the other offering \$23 for a bootblack.

Recently when California school teachers and their pay were up for discussion at the state legislature, it was pointed out that hodcarriers, in California, get more pay than school teachers.

These facts might be duplicated almost anywhere. The old standards seem strangely reversed today.

### HIKING AND HEALTH

Residents of Orange county have always enjoyed the county's out-of-doors. The delights of its rugged shore and sandy beaches and its canyons lined with oaks and sycamores have nowhere found a more intimate or appreciative response than it has at home. While a prophet may be without honor in his own country, the beauties and advantages of our own nearby mountains and coastline are not to be classed with the prophet.

The early settlers drove in lumber wagons and buggies to the "picnic grounds" in the Santiago canyon, to the "Santa Ana camp grounds" at Laguna Beach, to the Hot Springs, and to other places along the coast and in the mountains.

Then came the period when the bicycle was the favorite vehicle for outings. The young and vigorous, and some who were not so young nor yet so vigorous, raised the seats and lowered the handle bars, and thought nothing of a ride to Newport Beach on a Sunday afternoon, or a ride to the San Juan Capistrano mission in the morning and a return in the afternoon.

The bicycle had its day as a method of transportation and quickly went into a class of plain utility. While nearly everybody hereabouts has a bicycle in the family, the bike is ridden as a matter of convenience, not for recreation and as a means of getting out of doors and to the numerous "points of interest" with which our county is dotted.

The automobile has come into its own. Until it came, back through the period when lumber wagons were in the majority on the roads, back through the hey-day of the bicycle, the adherents of hiking as a sport were fairly numerous, and those who took walks afternoons and evenings were not to be numbered. How things change! Those who remain among us who loved hiking for the sake of hiking have surrendered to the upholstered cushions and speed of the automobile.

While the Sunday afternoon stroll is nearly as little to be expected now

as a Sunday afternoon's bicycle ride to Laguna Beach and back, we ought not forget the health-giving attributes of the hike. There is no better constitutional than a daily walk. Of course, walking in a slow and dignified way has but little value in reducing or hardening flesh. There ought to be vigor in it, enough of exercise to fill the lungs with air and to start the blood to flowing faster.

While our automobiles will take us to the places we select for our outings, let us do some hiking when we get there. Let's climb a hill or take a run down the beach. We will come home better for it, with our bodies and minds more responsive to our desire to work.

### Balance Sheet

New York Tribune

On the debit side:  
Killed, 70,000,000.  
Crippled, 20,000,000.  
Homes destroyed, 1,000,000.  
Money loss, \$120,000,000,000.  
Anarchic conditions over one-half of Europe and with difficulty kept out of the remainder.

A social quackery which plies its trade among peoples confused by losses that are repairable only by industry and thrift.

On the credit side:  
A demonstration that liberty is so prized that to save it no sacrifice is too great.

New proof that man is a moral being and reacts to moral ideals.

A greater sense of fraternity among brothers of the soul who fought together.

A chance that the lessons of the war will sink in that hereafter gigantic evil would be stopped before it gets afoot.

A generation capable of performing the prodigies marking this one may claim it is master of its fate, and foresee, not far distant, the day when the mark of the Beast will be gone, but forever remaining, the glorious memory that he was successfully resisted.

### Going Ahead

Pasadena Star-News

California has done a great deal of readjusting since last November and is getting its house in order for a long era of developmental activities. Truth is, California has had less readjusting to do than some of the states "back yonder," which were so deeply and heavily engaged in purely war industries. Industries in this state were not so much devoted to war work as in the eastern industrial centers, consequently there has been little readjusting to do here.

Conditions are very favorable for big and varied development in California. Industries, already established, are being or will be expanded. New industries will spring up. Commerce is being developed on a much larger scale than ever before. The foundations have been laid well for tremendous upbuilding of enterprise. The time of experimentation is ended. It has been demonstrated what California can produce and what it can accomplish in various fields of useful and profitable endeavor. Industrial and commercial enterprises here, if meritorious, are not doubtful risks.

### SENATORIAL HUMOR

WASHINGTON, July 31.—(United Press.)—Occasional flashes of humor lighten the seriousness of the senate league of nations battle. Here are three stories the league debate is responsible for:

Senator Williams, Miss., was explaining that though the league covenant was not all the United States desired, it was all we could expect under the circumstances.

"Which reminds me of my little girls," he said. "One had straight hair, while the other had curly hair. The straight-haired one was envious of her sister's ringlets, and often used to grumble because her own tresses refused to curl."

"One day the curly haired one was grumbling about some fancied hardship, and her sister rebuked her thus: 'Well, you know you can't have everything AND curly hair.'"

And Senator Knox, shaking his head over glowing predictions of the way the United States is to lift weak nations from their lowly condition, said:

"That makes me think of the drunkard who was lying in the gutter unable to rise. Nobody paid any attention to him until another, not quite so drunken, came along and asked him what was the matter."

"I can't get up," said the recumbent one.

"I'll pick you up," volunteered the other, and suiting the action to the word, he tugged and pulled, but succeeded only in toppling himself over.

"Tell you, friend," he said finally, "I can't get you up, but here's what I will do—I'll lie down with you."

Senator Swanson was discussing what will happen to those senators who oppose the league.

"They'll fare like the plowboy," said Swanson. "He was plowing his field when an inquisitive passerby asked him how much wages he received."

"Wages?" said the boy. "I don't get no wages. I get nothin' if I do, and hell of I don't."

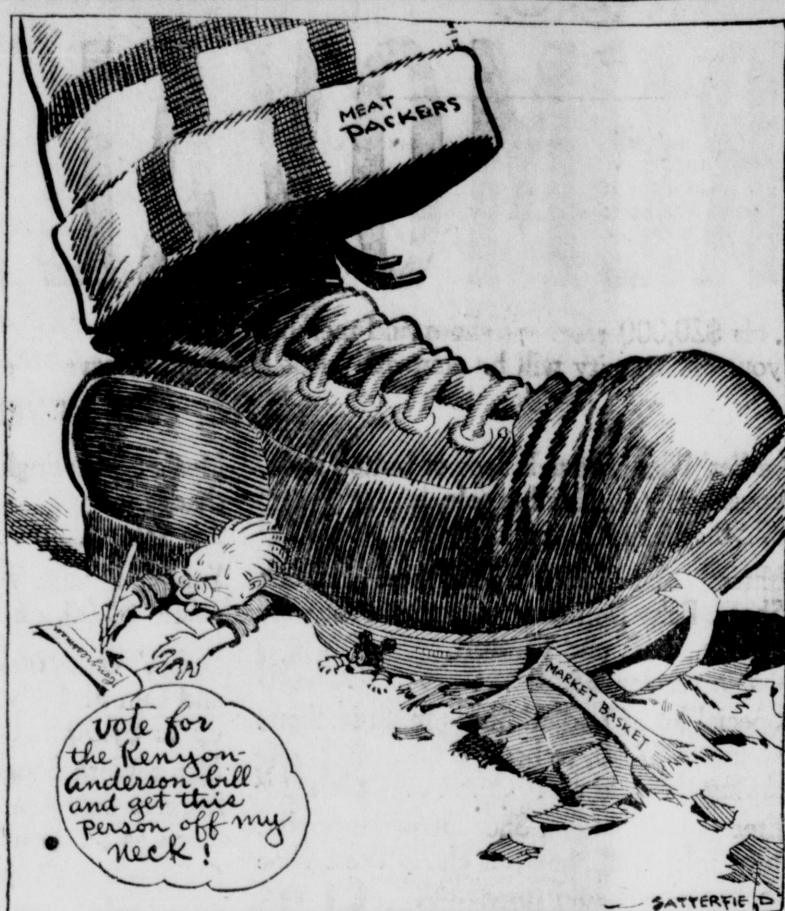

### TARRY WITH HEAD IN CAN CAUSES TROUBLE

STAMFORD, Conn., July 31.—A stray cat snarled things up badly here early this morning. The feline hobo was desperately hungry, and in its haste and eagerness to satisfy its hunger, thrust its head into a salmon can that appeared to shrink.

Anyway, the cat was unable to get its head out and rushed about blindly and wildly, knocking down babies in its efforts to free itself.

The people in the neighborhood became so alarmed that they called on the police and fire departments to kill the wild cat. Tabbv was very tame after the can was pried off its head by a cop.

## Write Your Congressman

## We Must Build Homes

Have you heard the tale of woe of some discouraged would-be resident of Santa Ana who has tramped our streets and has found no place wherein he could lay his household goods?

Families have come here expecting to make this their home. Some of them have been lucky. They are the ones who by chance found a place that suited them, a place in which they could live and with us enjoy the blessings of life in our own city of happy homes. Others, less fortunate, have gone elsewhere to live. Their impression of Santa Ana is that of discouragement, for here they went through the agonies of house-hunting.

Our efforts now should be not advertising for more people to come to Santa Ana so much as using every legitimate effort to get more houses built for those who are coming.

There is no need to worry about whether or not easterners will reach Santa Ana. They are coming now faster than we are providing residences for them, and the flow of population toward California is only well begun.

Let us get civic committees busy on a house-building program. An appeal to faith in Santa Ana ought to arouse men with their money invested here to the fact that it is good business to build homes.

If Santa Ana is to prevent newcomers from receiving a greeting marred by futile house hunting, we must harken to the slogan: "Build! Build! Build, Now!"

## Worth While Verses

A wide, dusty village street, melting away into the vastness of Dakota fields \* \* \*  
Fields of the buffalo herds, the herds of long ago \* \* \*  
Out and on to the gorgeous purple afterglow of the prairie sunset, \* \* \*  
Sunset the same through countless ages back where chiefs rode free and splendid long ago.

And down the street a burly buck, one of the Yankton Sioux, they said,  
Leading a little squaw girl by the hand;  
He is in his overalls and flopping hat—she in gaudiest of calico, red and green,  
Munching ice cream cones.

And out and on they walked,  
Down the wide dusty village street;  
Out on the prairie of thundering buffalo herds of long ago,  
And splendid chieftains, in their savage prime;  
Out toward the sunset's purple glow, age after age the same,  
Two little spots of black against the flaring sky—  
Eating ice cream cones.

—From "The Pagan."

### GROANS AND GRINS

WANTED IT HEALTHY.

Storekeeper (to sub, and his wife on first shopping expedition): I can strongly recommend this ham, madam, it's well cured.

Wife (in alarm): Oh, don't give me one that has anything the matter with it, even if it is cured now. Let me have a perfectly healthy one, please.

—From the Edinburgh Scotsman.

IN HER LINE.

First Shop Girl—Gee! I'd like to have been on the R-34 when she came across.

Second Ditto (who had read the log)—They could have used you all right, Mame, when they wanted that gum chewed to mend the water jacket.—Boston Transcript.

WAS NOT A DRINKING MAN.

The daughter of the house was engaged in a desperate endeavor to drag conversation from the shy and silent young man, when the piano in the lounge began to play an air from one of Meyerbeer's operas.

"Don't you love Meyerbeer?" she asked, hopefully.

"I have never touched intoxicants in my life," replied the young man coldly.—Dallas News.

Too Good to Quit

At a recent gathering at the Lambs' Club, George M. Cohan told the following story:

"When I was a youngster our town was thrown into a frenzy of excitement through the appearance of a chap known as 'Jack the Kisser.' He used to jump out of dark places, grab the girls, kiss them and run away. A friend of mine and a girl were discussing the kisser, he declaring that a man could kiss a girl whether she would it or not, and she maintaining it couldn't be done. Finally they decided the only way to prove their contentions was to try it. They did. And he won after a brief struggle and kissed the girl ardently for several minutes. Then he released her.

"Oh, well," said the girl, 'you really didn't win fair. My foot slipped. Let's try it again.'"—Pittsburgh Chronicle-Telegraph.

### "REGISTER"-ETTES

SUB SILENTIO

Dear love, the summer night  
Creeps o'er the world again,  
And lo, a fading ray of light,  
Leans on my window pane;  
It falls upon my dreaming face,  
And holly seems the silent place.

You used to smile to see  
My eyes with pleasure beam,  
Ah, you seem very near to me,  
Would God it were no dream!  
But only shadows white and bare,  
Move slowly to my pensive chair.

Art called you far away,—  
Art, with her splendid birth,—  
Around your side the Muses play,  
For me, dark is the earth;  
I hearken for your call—in vain!  
Ah God, the barren, bitter pain!

Toronto, Ont.

"Here, waiter, ask the orchestra to play the Toreador song while I eat this steak. I feel like a bull-fighter."

Pat (to his mate, Mike): "Tis always the unexpected that happens. When of wint home late last night I expected me wofe would hit me wid a poker."

Mike—And she didn't?

Pat—No, she used the flatiron.

Small Edward was spending the afternoon with his aunt in the suburbs. After he had been at play for a time he said: "Aunt Beatrice, mamma said I wasn't to ask you for a piece of cake, but she didn't tell me not to take it if you offered it to me."

He was awfully wild. In fact, he was most wildly wild. "I tell you once and for all," he roared at his crying offspring, "if you marry Grace I'll cut you off without a penny, and you won't have so much as a piece of beef to boil in the pot!" "Well," said the young man, as he went in search of the parson, "Grace before meat."

Americans in England refuse to have their spirits dampened even by our climate, declares Tit-Bits. The Colonel of a regiment, making a night tour of a certain camp, was challenged by a sentry who had been standing at his post for two hours in a driving rain. "Who's there?" said the sentry. "Friend," replied his colonel. "Welcome to our midst!" said the sentry.

Representative Julius Kahn said at a dinner: "What we call a 'dessert' the English call a 'sweet.' Offer an Englishman a dessert and he wouldn't understand you. I remember a dinner here last year at which we entertained a number of English Tommies. At the end of the eleventh course the waiter approached one of them with a huge dish of apple pudding. 'Dessert, sir?' he asked. 'Dessert? Not me! Not when I get a feed like this for nothing!'"

A funny one happened the other day in Justice Palmer's office, says the Los Angeles Times. A young couple were being married, surrounded by several friends. As usual the ritual came to that place where the justice said: "Does anyone present know of any reason why this couple should not become man and wife?" And to everybody's amazement, the groom spoke up, "I do." As he said afterwards, "That's what comes of too many rehearsals."

An English vicar and his curate had quarrelled and the latter was requested to find some other congregation to minister to. The curate therefore preached his farewell sermon and the parishioners came in crowds to hear him. "My text," he said, "is taken from the moving story of Abraham. 'Tarry ye here with the ass, while I go yonder.'"

## BUCKHECHT REG. U.S. PAT. OFF. ARMY SHOE

For the man who is on his feet all day—a more comfortable shoe was never made. ## COUNTY WORKERS WILL GATHER AT PARK

Plans Will Be Presented to  
Advisory Committee To-  
morrow Night

Gathering of the clan tomorrow night for the big campaign for the welcome to soldiers on September 9 at Orange County Park, will signal the start of active work all over the county that will result in one of the grandest celebrations ever held in the county. The meeting will be held at Orange County Park at 7 o'clock, with members of the executive and advisory committees and their wives in attendance. There will be at least 200 present.

Full plans, as so far arranged by the executive committee, will be unfolded to the men and women who are to conduct the activities in their communities. That there may be no misunderstanding, Chairman Bisby deemed it advisable to call all of them together, and in view of the fact that the welcoming celebration is to be held at the park, it was considered fitting and proper that the committees should meet there.

The undertaking is a big one, but with team work under organization of the character that Bisby always brings into action, it is expected that every wheel will fit into its proper position, making the whole one of easy and successful operation.

Indications today are that everyone to whom an invitation was issued, will be there. The interest being manifested in the big day in all sections of the county is such as to impress those upon whom will devolve the responsibility for its success with the importance of being thoroughly posted on every contemplated move.

The business session of the evening will be followed with a social hour.

In the light of the wrangles at the peace table perhaps one of the beatitudes should be rewritten to read: "Blessed are the peace makers; for they all want to inherit the earth."—Edinburgh Scotsman.

## LIEUT. TIDBALL BRINGING HOME FRENCH BRIDE

Prominent Young Santa Ana  
Married In Paris on  
June 28th

A French bride is to be brought to Santa Ana by Lieut. Charles Tidball, son of Mr. and Mrs. J. T. Tidball of 1506 West Fourth. The date of the arrival here depends entirely upon the success of Lieut. Tidball in breaking the bonds that bind him to the army. He has applied for a discharge, and according to a letter just received from him, he has prospects of being sent home soon.

The bonds that bind him to the army, Bedele Burguegnon were assumed at a wedding ceremony performed on June 28, 1919. The bride's home has been in Paris. Lieut. Tidball and the young lady who became his wife became acquainted months ago through a mutual friend. The marriage took place at the home of the bride's parents in Paris, in the presence of a few of her most intimate friends.

Lieut. Tidball has been stationed in Coblenz, Germany, with the airplane ordnance service of the army of occupation.

Lieut. Tidball is a graduate of Santa Ana high school and of Occidental college.

## TWO ALARMS CALL OUT FIRE TRUCKS

A shed in the rear of a house at 802 East Second street caught fire at 11:30 last night and was destroyed. Damage amounting to \$375 was done. The house, owned by Fred Hausauer, 612 East Sixth street, and occupied by Allan Spencer, escaped injury. A fire truck arriving on the scene soon after the blaze was discovered prevented the flames from spreading. Spontaneous combustion is believed to have been responsible for the fire.

A second alarm of fire was turned in at 6 o'clock this morning and sent a fire truck to the Standard Oil filling station at the corner of First and Main streets. An automobile belonging to Fred Hutter, who lives near the corner of Edinizer and Bristol streets, caught fire while being filled with gasoline. Prompt action with hand fire extinguishers by Tom Willis, in charge of the oil station, prevented damage being done to the machine.

## Courthouse News.

### BALBOA ISLAND FELONY CASE IS LOTS FIGURE IN ACTION BEING HEARD BEFORE COX

Collins Commercial Company  
Sued By Civil Engineer  
of Santa Ana

An action has been brought in the superior court by H. F. Makosky, civil engineer of this city, against the Collins Commercial Company, a corporation whose charter has been forfeited, to determine the title to two lots on Balboa Island.

The defendants named in the complaint, in addition to the Collins Commercial Company, are S. L. Collins, Homer Collins and F. L. Collins as trustees of the Collins Commercial Company; Little C. F. Prince, George W. Prince, W. W. Boyd, A. L. Greenberg, and others.

According to the complaint on file today in the county clerk's office, the defendants claim "an estate, interest in, or claim upon" the two lots on Balboa Island, "adverse to the plaintiff, the exact and true nature of said estates being unknown to the plaintiff. The complaint sets forth that the defendants are without any right to the property.

Makosky asks that the defendants be required to set forth the exact nature of their claims and that all adverse claims of the defendants be determined by a court decree and that in the decree it be declared that Makosky is the owner and that the defendants have no interest in the land.

S. M. Davis is attorney for the plaintiff.

Cigar Salesman In Court on  
Charge of Driving Auto  
While Intoxicated

The preliminary hearing of M. L. Siebert, cigar salesman, of Los Angeles, accused of driving an automobile while intoxicated, is being held in Justice Cox' court today.

Early in July an automobile accident, in which Mrs. Clate Stanfield, Maurice Stanfield, 18; Laura Stanfield, 11; Miss Ada Short, all of whom live at Orange, were injured, occurred on West Fifth street near Blankenbeckler's store, the car in which the Stanfield party were riding colliding with a car driven by Siebert. It was as a result of Siebert's alleged intoxication that the accident occurred.

Deputy District Attorney W. F. Menton is prosecuting and Attorney Clyde Bishop is appearing for the defendant.

## ELK TURNED LOOSE IN LAGUNA MOUNTAIN

SAN DIEGO, July 31.—That the twelve elk, three bucks and nine does, just turned loose in the Laguna recreation area, will greatly increase the use of this already popular public spot, is the opinion expressed here today by Forest Supervisor M. R. Tillotson.

"Situated at an elevation of 6000 feet, and covered with an exceptionally fine growth of pines and oaks, the Laguna mountains offer an ideal location for the elk," he continued. "There is ample forage for many times the number just turned loose. Snowfall, even in winter, is negligible, and the lakes afford abundance of water. The area, which has been set aside and developed by the Forest Service as a camp ground and summer resort, is within a game refuge and this fact, together with the added protection afforded by rangers who are permanently stationed there, will assure the herd against all molestation by hunters."

The elk, previously located in Balboa park, were turned over to the Forest Service by the San Diego Board of Park Commissioners.

## WILL SERVE FOUR YEARS MORE IN U. S. NAVY

Local Recruiting Officer Re-  
enlists Yesterday and Will  
Continue Here

Chief Carpenter's Mate W. P. Hughes, who is in charge of the local navy recruiting station, was in Los Angeles yesterday for examination under his re-enlistment and went through with flying colors.

His enlistment expiring, he is taking advantage of the fine offer now being made by the navy for re-enlistments and to men who are in the reserve. He gets a bonus of \$400. He is re-enlisting for four years, his pay being \$190 per month under the increased schedules operative in the service.

"My father said I would never make good when I quit the University of Pennsylvania," says Hughes, "but I have acquired a better education in the navy and am perfectly satisfied with the record I have made. I have studied while in the navy and taken advantage of educational opportunities offered, and if I want to retire at the end of six years I can do so with a monthly pension and take up work in a customs office at a satisfactory monthly salary."

"I have studied customs work and have prepared myself for that work, and I will have first choice on such a position if I want to take it after I have completed sixteen years of service."

"I maintain that that is a pretty good prospect, and that is just an indication of what any young man can do who joins the navy and takes advantage of the many opportunities offered. Schools are maintained for the enlisted men, and it is up to the individual after he gets in."

Hughes will continue as recruiting officer for Orange county. He is delighted with Santa Ana and wants to remain here. He is constantly in fear that he will be changed to some other location in following the policy of the department to switch recruiting officers around.

The attractive offer being made by the navy department is expected to bring many recruits, naval reserve men in particular being offered inducements that are worth while, and in anticipation of this Hughes is to have an assistant here.

Herbert Wilbur, who has served in the navy, went to Los Angeles today to re-enlist and he will be assigned to this city as assistant recruiting officer. He is chief gunner's mate, and has served 5 years.

Ignorance would be more blissful if it were able to recognize its own blissfulness.

## Fixing Prices of Produce Is Under Fire at Inquiry

COLUMBUS, O., July 31.—Alleged "gentlemen's agreements" permitting produce firms in the big centers of the state to corner perishable foods were under fire here today by Ohio prosecutors in conference on the problem of curbing prices and profiteers.

Evidence gathered in various counties indicated that these agreements permitted one firm to control the butter market, another to dominate the potato market, while others held sway over berries, fruits, etc.

Prices on these commodities were fixed arbitrarily from day to day without regard for the law of supply and demand, the prosecutors charged.

Next to the meat trust, the most powerful combination is the fruit trust, one official charged. Cases were cited where whole carloads of fruit were dumped and permitted to rot while abnormal prices obtained in the cities. Many truck gardeners were in agreement with produce merchants not to sell direct to the consumer, Governor Cox and Attorney General Price, directing the investigation, were told.

Governor Cox blamed the high cost of foodstuffs and living in general for unrest in the United States and urged the prosecutors to wage unremitting war against profiteers in their respective counties.

### City and County Briefs

Arrangements for the memorial tablet to be placed in the Church of the Messiah as a memorial to Nathaniel Rochester are progressing nicely. Donations from several of his old friends have been received and when the Rector returns in September, definite plans will be published.

More than half-way persuaded to move to California, Mr. and Mrs. Fred B. Robinson of Waco, Tex., were visitors here yesterday. They have been stopping in Los Angeles. Robinson is vice-president of the Waco Times-Herald Co., and as a newspaperman was a visitor at the Register office. He is enthusiastic over Orange county's good roads, and what he sends to his home city for publication, while designed to boost the good roads spirit in Texas, is also a boost for Orange county.

D. Applebaum, who has just sold his interest in the Unique Cloak and Suit House, will open an up-to-date establishment in Orange about August 15, to be known as the Style Shop. The new store will occupy the store room next door to the Harris Drug Company.

Two of the Schlund daughters, of Anaheim, left Tuesday for Mobile, Ala. Miss Eloise Schlund to take charge of the Southern Infirmary hospital as secretary of nurses, and Miss Marion Schlund goes to Washington, D. C.,

where she has been called to take a position in the war insurance department.

Raymond Dickinson is over in France. He is in the navy and friends have been wondering if he was on any of the boats that are coming to the Pacific waters to compose the Pacific fleet. A card just received from him by George Peters, dated July 9, stated that he was in Paris and expected to leave the following day for a visit to Rheims and Chateau-Thierry. He is on the U. S. S. America.

By a trade consummated yesterday by the recording of deeds, P. A. Robinson becomes owner of thirty-five acres set to beans a half mile east and a half mile south of Bolsa, and Tarver Montgomery becomes owner of three lots at the southwest corner of East Washington avenue and Lacy street, upon which two new cottages are being completed, and a lot at the southeast corner of Sixth and Lacy streets.

About 2,000 people are attending the Adventist convention, which opened at Orange today.

The committee in charge of arrangements for proper recognition of officers of the Pacific Coast fleet upon their arrival in San Diego on August 7th, has asked the Santa Ana Chamber of Commerce to appoint three men to represent the county on the official committee to receive Secretary of the Navy Daniels and Admiral Rodman.

## It Will Mean a Substantial Saving If You Buy Your Furniture Now

We absolutely know that furniture prices are due for another increase in the very near future. Labor is still unsteady and materials hard to secure. It would therefore seem logical and beneficial to you if you would come to us now and permit us to outline a scheme of furnishing your new home or refurnishing your old home. It will mean a very decided and substantial saving if you buy your furniture now.

You will also find upon investigation that our furniture prices are from ten to twenty percent lower than city store prices.

## Rugs In All Sizes Now In Stock

It will be of interest to those who have had difficulty in procuring rugs to fit odd-sized rooms and hard places, to learn that we now have in stock the sizes you want. Foremost in this comprehensive display are Whittall rugs. It is an unusual showing and we urge that you come and make your selections while we are in position to take care of your needs.

### Douai People Watch Incubator Closely As First Chick Appears

PARIS, July 31.—Egg shells, not bomb shells, are matters of the chief importance in Douai nowadays.

The first newly hatched chicken in the devastated town of Douai, department du nord, stuck an uncertain yellow head through the hole in its shell a few days ago, to the breathless interest of crowds of children and grown folks.

It was not only the first chicken hatched in Douai since the war, but the first one ever hatched there in an American incubator. They are still talking about it excitedly at the corner cafe. The glass fronts of the two incubators, the gift of the American Red Cross to the town, have been besieged by the children since they first arrived.

There are now twenty-five eggs in each incubator. Five eggs apiece are supplied by the ten families who hover about with proud, if anxious, expressions.

Miss Bertha Crawford, of Leipsic's Department Store, leaves Saturday to take a professional course in Gossard corset fitting in the School of Corsetry at Chicago, Ill.

SANTA ANA, CALIFORNIA, THURSDAY, JULY 31, 1919.

# \$6,000,000 VALUATION GAIN IN CITIES

## BATTLE HEROES ON WAY HOME ARRIVING IN NEW YORK

### Nine Fighters Who Went Over With First Contingent of Co. L Coming

With the Fourth Division now arriving from overseas are a number of Orange county men, former members of the Company L that went away to war in April, 1917. Among them is Allen Wallace of Anaheim, cited for bravery.

"Just arrived. Gang be home soon." These are the words of a telegram received yesterday from Ivan Gillespie, who was in the first contingent of Co. L that went from Camp Kearny to Europe.

Nearly all of the men who went in that first contingent saw hard fighting. Two or three of them were transferred to office duty, but the rest of them on arriving in France were sent at once to replace men among the regulars. Most of the Orange county boys in that group were sent into the 58th and 59th Infantry regiments, and with them they saw fighting commencing at Chateau-Thierry and ending at the Argonne was taken from the Germans.

Some of the boys have returned home via hospitals. Among them were Jacob M. Fisher, Maxwell Ayers and Paul Tucker. Each of these was wounded. Stamey Elliott was killed in the Chateau-Thierry fighting.

Roy Morgan, whose parents lived at Tustin when he enlisted and who now live in Los Angeles, reached home three weeks ago. He went through the hardest kind of fighting before reaching the Argonne, and he was in action in the Argonne for twenty-four days.

"I didn't have so much as an eye-lash harmed," said he.

**Reaching New York**  
The Fourth Division, a regular army division, was sent to Germany with the army of occupation. It is now on the way home. Some of its units have reached New York, others are now on the Atlantic and others may be still awaiting transportation.

Among those who were with old Co. L's first contingent and who are now understood to be either in New York or on their way overseas from France, are Ivan Gillespie, who has re-enlisted for a year; Alvin Teel, who recovered from wounds and was returned to his company; Lee Kenyon and Bayard C. Blackmore of Tustin; Dick Hawkins, Harry Adams and Charles Nelson of Santa Ana; Carl Burns of Santa Ana, who, upon discharge from the hospital, where he went after being gassed and hit by shrapnel and a machine gun bullet, was transferred to the headquarters troop; Allen Wallace of Anaheim, grandson of Mrs. Elizabeth Wakeham of 820 Garnsey street, Santa Ana.

**Wallace Cited**  
Allen Wallace was cited for bravery. The citation, signed by General Pershing and Major General Hersey, states that for four days Wallace and three other men remained in the open under shell fire preparing food for men fighting in the front line. Without the food furnished by the four men the fighting at that point could not have gone on.

In the Fourth Division is Lee Eckley of Santa Ana. Eckley went overseas with the Grizzlies and he was one of a few from that organization who got into action. Eckley was transferred to a machine gun company of the Fourth Division. He was in hard fighting. A recent letter from him said that he had re-enlisted for a year.

**ATTENTION, VETERAN REBEKAHS**  
The regular meeting of this association will be held in the parlors of the I. O. O. F. Hall, Friday, August 1st. Please attend as business of importance needs your attention.

## Early Tomatoes Grown on Irvine Ranch Bringing in Growers \$50 to \$140 Ton

WITH early tomatoes shipped from the San Joaquin ranch bringing first \$140 a ton and now \$50, there is no doubt but what next year fully 3,000 acres of the big ranch will be devoted to vegetable growing. Early tomatoes from 700 acres are now being picked and shipped.

Along the Culver road that runs from the state highway at Culver's corner down toward the bay, are hundreds of acres of fine land that W. G. Mitchell, superintendent of the Irvine ranch, found to be somewhat of a problem. The land is of a betwixt-and-between nature.

It is not bean land, such as lies to the east and south, and it is not sugar beet land, such as lies along the drainage canals. And it was not barley land. Of course, it will grow any of those crops, but it is not just ideally fitted to any of them.

Superintendent Mitchell decided that this land ought to make fine vegetable crops, and under his persuasion about ten tenants this year were secured to take up tomato growing.

Believing that it was well worth while to try to ripen tomatoes for the early markets, Mitchell arranged with the tenants to put out their plants about March 15. Some of the tenants thought that was too early, but Mitchell agreed to refund them the cost of planting if the plants did not live. No refund was necessary. The plants grew in fine shape and are loaded with product.

The first tomatoes shipped to market

brought \$140 a ton. The price now is \$50. While many sales have been made locally, the growers are finding it profitable to ship in carload lots. Shipments, are to Salt Lake and to Texas. Next week two carloads a day will be going to market.

The product of the 700 acres is contracted to the California Olives cannery, just as soon as the rush production season is on. The cannery will not start until tomatoes are plentiful enough to handle in big quantities daily. That delay will give the growers the benefit of early market prices for a share of their crops.

The tomato bushes are heavily laden with fruit coming on. Next fall between 200 and 300 acres of land along the Culver road will be planted to cabbages. Vegetable acreage will be enlarged until by this time next year it is expected by Superintendent Mitchell that no less than 2,000 acres will be growing vegetables.

In addition to the 700 acres of tomatoes that are being grown for the markets and cannery, there are 100 acres set to tomatoes that are being grown by the Havens Seed Company for seed.

## YOUNG VETERANS OF GREAT WAR COME HERE

Bearing the scars of wounds received in battle, rich in the experience of many months spent in the service of their country on land and sea, two young veterans of the world war, Earl R. and Otis L. Galbreth, aged 27 and 18, respectively, sons of Mr. and Mrs. J. E. Galbreth of 1036 West Fourth street, are home today.

Otis Galbreth was only 17 years old when he enlisted in the fall of 1917. After serving in America for some months he went overseas in June, 1918, and almost immediately went to the fighting front. He was wounded at Chateau-Thierry. Recovering, he rejoined his organization, a coast artillery company, and was again wounded at the battle of Soissons. He has now entirely recovered from his injuries. He landed in America on May 1.

Earl Galbreth was machinist's mate aboard the U. S. S. Susquehanna. He made six round trips across the Atlantic and his ship was one of those in the convoy attacked by a German submarine at the time the President Lincoln was sunk. The submarine, Earl states, lurked about the convoy of vessels during the whole of the night following the torpedoing of the President Lincoln.

Earl enlisted at Detroit, Mich., and Otis at Muncie, Ind. Their parents moved to Santa Ana in the meantime. This is the boys' first visit to Southern California and both are enthusiastic over Santa Ana and Orange county. They declare that they had no idea that this section was so rich in natural resources and attractiveness for the homeseeker.

The family will probably decide to remain here permanently.

**Time to Hush**  
"This fellow Dempsey is the greatest fighter who ever lived."  
"Softly, my friend, softly."  
"What's the matter?"  
"You are being overheard by an 18-year-old boy who lost a leg in the Argonne."—Birmingham Age-Herald.

To rent a room or house quickly, use the Register Classified Ads. The cost is small—but they do the work every time.

## ORGANIZE HERE IN SEPTEMBER FOR CHURCH CAMPAIGN

### Episcopalians of Santa Ana To Join In National Drive Soon

Organization of the membership of the Church of the Messiah, Episcopal, of Santa Ana, for that church's part in the national campaign of the Episcopal church will be perfected in September. The parish will do its part in making the campaign a success.

Yesterday in Los Angeles James R. Page was selected as chairman for the diocese of Los Angeles, which includes Santa Barbara county and the other Southern California counties south of Santa Barbara. State and diocese organizations are now being made, and parish organizations are to be made early in September.

Rev. W. L. H. Benton, rector of the Church of the Messiah, has been in close touch with the movement, and will follow the program of organization.

"The purpose of the campaign," said Rev. Benton today, "is to arouse Episcopal members to the importance of spreading a true understanding of Christianity and a true living of Christian principles. It is the same movement that is found in most of the churches, an effort at this time to give the world the most possible amount of gospel that the Christian spirit may be the basis of maintaining a lasting peace. We believe that Christianity is the basis of true peace, and it was the failure to live up to the teachings of Christ that threw the world into war."

**To Stir Up Members**  
"The raising of money is secondary and of minor consequence. The principal aim is to stir up church members to a realization of the world opportunity for Christian work. The raising of money will be incidental."

The Episcopal church is to raise \$20,000,000. Dr. R. W. Patton of New York, national director of the campaign, has explained the purpose of the campaign as follows:

"To bring the spiritual power of the church to bear upon the church's whole task. To secure and train an increased number of people, clerical and lay, for Christian leadership. To care for on a yearly basis for three years, the financial needs of all the general boards, viz. the board of missions, the general board of religious education, the social service commission, together with such general agencies as the Brotherhood of St. Andrew, Church Temperance Society, Seamen's Church Institute, Church Periodical Club, Girls' Friendly Society, Daughters of the King, etc. In consultation with the proper authorities, to care for the financial needs of all the provinces, dioceses and missionary districts of a missionary, religious, educational, or social service nature."

## DEAN HUNT PRAISES ORANGES AND BEANS

Riverside Press: "This two-year-old orange grove is the finest in the state of its age and I have no hesitation in saying that."

"Moreover, the bean crop now growing between the rows of trees is the best I have seen anywhere in California."

That was the compliment handed out by Dean Hunt of the state university, on the young citrus orchard at the Riverside citrus experiment station and on the bean crop which the station experts are growing between the rows of citrus trees in the young grove. The orchard immediately joins the unimproved part of the Gage tract of 300 acres, which is now being offered to the university for the farm school; and Dean Hunt's view of the capabilities of the soil is pretty clearly indicated by his praise of the young grove and the beans.

Endorsements of the Gage tract as the best site for the farm school are multiplying. The Los Angeles chamber of commerce has sent in an endorsement and late yesterday endorsements were wired by the associated chambers of commerce of Riverside and Orange counties, the San Bernardino county supervisors and the San Bernardino chamber of commerce.

**Mr. Wisler Cured of Indigestion.**  
"Some time in 1909 when I had an attack of indigestion and everything looked gloomy to me, I received a free sample of Chamberlain's Tablets by mail. I gave them a trial and they were such a help to me that I bought a package, and I can truthfully say that I have not had a similar attack since." writes Wm. B. Wisler, Douglassville, Pa.—Advertisement.

## Bootblacks Decorate Ankles Make "Keep Cool" Stockings Ready With Stencil and Ink

Alice Monroe, Broadway show girl, getting camouflaged.

## Anyhow the Fad Will Spare Working Girls Criticism If They Adopt It

NEW YORK, July 31.—If the "keep cool" stocking craze does nothing else it will help the New York working girls and stop the tongues of busybodies wagging about where Mamie or Katie or Sadie "got those silk stockings and her only making \$6 a week."

But so far the working girls have not adopted the keep cool stockings which, by the way, are not stockings at all, but just bare skin. So far the craze has been confined to the show girls, extra girls in the movies and others who wish to attract attention and still stay out of jail. But the New York bootblacks have been equal to the occasion. They have obtained stencils and ink and are prepared to camouflage the bare shanks of daring girls with the "keep cool" habit at so much per stencil.

## ICE CREAM, SODA TAX IS STILL IN EFFECT

LOS ANGELES, July 31.—Collector Carter was deluged with inquiries yesterday to know if the tax on ice cream and soft drinks, including soda water, should be collected, in view of the action of the House in voting to repeal that part of the new internal revenue law.

## FIGURES REVEAL VAST STRIDES IN GROWTH OF COUNTY

### Oil Boom Brings Increase of More Than Million and Half to Fullerton

Figures showing a gain of more than 2 1/2 million dollars in 1919 in the assessed valuation of Orange county cities, as compared with 1918, were made public today by the office of the county auditor.

The figures given in the accompanying table show strikingly the tremendous strides being made in the development of the county. The assessments were made by County Assessor James Sleeper.

The total valuation of the nine incorporated cities, exclusive of operative property, was \$33,137,190 in 1918, as against \$35,709,150 for the present year.

The largest increase in valuation was made by Fullerton that city being assessed at more than a million and a half more than last year. This is due to the vast strides made in the oil industry, a newly developed oil property being located within the limits of the city.

The city of Brea also shows a substantial gain, but one not so large in proportion to that made by Fullerton. While oil development operations have been going on as rapidly in the Brea section as at Fullerton most of the Brea wells are outside the corporate bounds of the latter city, this precluding any great increase in valuation.

The assessed valuation of Orange county's school districts, exclusive of operative property, is \$87,000,000, in round numbers, for the present year, as against \$73,910,565 for 1918. This increase is due very largely to the increases made in the nine incorporated cities.

Following is the table showing the valuation in the nine cities, exclusive of operative property:

	1918.	1919.
Anaheim	\$ 1,929,440	\$ 2,128,520
Brea	417,600	594,550
Fullerton	18,463,945	20,014,695
Hunt Beach	977,965	999,650
Newport B'ch	1,104,700	1,113,680
Orange	2,977,350	2,311,280
Santa Ana	7,180,675	7,443,765
Stanton	353,470	472,640
Seal Beach	632,045	630,270
Total	\$33,137,190	\$35,709,150

**P. E. EXTENSION ASKED.**  
REDLANDS, July 31.—A. E. Isham, secretary of the Chamber of Commerce, has announced that a determined effort will be made to get the Pacific Electric to extend its line of Yucaipa as soon as possible. He has prepared data showing that the shipments from the Yucaipa Valley are large enough now to pay a big interest on the cost of the extension.

## Here's How One Young Man Lost His Fondness for Melon

There was a certain youngster at Orange who lost his bicycle. The youngster's father reported the matter to the sheriff's office, stating that the bicycle had been stolen from in front of a movie theater in Santa Ana while the lad was inside.

The father simply repeated the circumstances of the theft the way they had been told him by his young hopeful. He had no reason to believe that the story should be taken with a grain of salt.

So the sheriff's office got busy and broadcasted circulars throughout the county, telling all about the wheel having been stolen from in front of a movie house.

It was Ed Vaughan, of Orange, who innocently punctured the boy's story. For Vaughan, who knew that the boy had lost his wheel, happened to see it, and reported his find.

But where Vaughan found the bicycle was not in front of a motion picture theater. No. The wheel was leaning against a house. And the house was located quite near a water melon match.

And now there is a certain youngster at Orange who—well, he has recovered his bicycle, and it is to be surmised that his appetite for water melons is not exactly what it once was.

## TALBERT NEWS NOTES

TALBERT, July 31.—A party of local young people enjoyed a delightful plunge party and wienie bake at Huntington Beach Tuesday evening. Seventeen were in the crowd which was conveyed to the beach by several machines. After a dip in the plunge the party adjourned to the sands where they toasted wieners around a big bonfire. Those who enjoyed the evening were Misses Kathleen, Dorothy and Blanche Helm, Ruth and Louise Weddle, Grace Bradley, Edith and Wilma Plavan, Mildred Swift and Wilma Vennick, the latter of San Francisco, and Claire and Vance Wardlow, Ivan Harper, Frank and Donald Harper, Ben Cox and Floyd Umunhofer, the latter of Santa Ana.

Ranchers in this vicinity are greatly relieved over the water situation, which had been serious here this summer. It had been feared by some that the shortage would continue permanently on account of last season's light rainfall, but the water is raising rapidly and some wells are expected to flow again soon.

Mr. and Mrs. Robert Wardlow and family drove to Corona Saturday and spent the afternoon at the ranch with the former's father and brother, R. B. and LeRoy Wardlow, who are ranching there.

John Pope, Fred Pope and Miss Smith visited in Long Beach Tuesday at the home of Mr. Pope's parents, Mr. and Mrs. Henry Pope. They were accompanied on the trip by his sister, Mrs. Joseph Walton of Westminster.

Rev. and Mrs. J. J. Woodson, daughter, Dorothy and Willa Allen, who has been the guest of Dorothy the past week, drove to Pomona Monday to the home of the latter where Miss Mabel Lee Woodson has been spending a week. She accompanied her parents and sister home that evening and her friend, Miss Grace Allen, also returned with them and will be a guest at the parsonage for several days.

Mr. and Mrs. Hubbard and little Roy moved Monday into one of Mrs. Nimmo's houses, the two latter having arrived here Saturday from Riverside where they have been at the home of Mrs. Hubbard's father since the family's recent arrival in this state. They drove through from New Mexico and Mr. Hubbard came directly here last week to join Mr. Donaldson in the blacksmith shop which he lately purchased from John Brewer.

Mr. and Mrs. Harvey Walker were Sunday dinner guests in Santa Ana at the home of the former's sister and husband, Mr. and Mrs. Frank Planchon.

Mr. and Mrs. Robert Wardlow and two younger children, Donald and Muriel, spent Sunday afternoon visiting at the home of Mr. and Mrs. Guy Graves at Santa Ana.

Miss Gladys Wardlow is visiting at Whitlitt with Miss Bess Miller. She left Thursday and will make an indefinite stay.

Mr. and Mrs. Robert Harper entertained Sunday, Mrs. Harper's parents, Mr. and Mrs. Samuel Giesler and family of Huntington Beach and sister and brother-in-law, Mr. and Mrs. Louis Crockerberg, of Norwalk.

Mr. and Mrs. Robert Giesler and daughter Lucille and son Walter Giesler and wife of this place, left last Saturday for Wheeler's Hot Springs, where they will camp until Monday of next week. On Wednesday Misses Della and Agnes and Harold Giesler left to join the family party and were accompanied by their sister and her husband, Mr. and Mrs. Bernard Stofel of Anaheim. They expect to return home Saturday.

Mrs. Mary Hoffman spent Monday with friends at Talbert, dividing her time between the Cox, Harper and Warner homes. Mrs. Hoffman, who has been working on the San Joaquin ranch for some time, is spending a two-weeks' vacation visiting her daughter, Mrs. I. A. Warner at Huntington Beach and came to Talbert Monday with Mr. Warner, who was working in this community.

Cut This Out and Take It With You. A man often forgets the exact name of the article he wishes to purchase, and as a last resort takes something else instead. That is always disappointing and unsatisfactory. The safe way is to cut this out and take it with you so as to make sure of getting Chamberlain's Tablets. You will find nothing quite so satisfactory for constipation and indigestion.—Advertisement.

## GERMANS WON'T SWARM INTO ARGENTINE

National Principles Will Prevent Colonization Says Dr. Naon

NEW YORK July 31.—Fundamental national principles of the Argentine government will prevent any overwhelming swarm of German emigration to that country, according to Dr. Romulo S. Naon, Argentine minister to the United States. Naon's opinion was set forth in an interview with the New York correspondent of "La Prensa," of Buenos Aires, just before the South American diplomat sailed for home.

"I place little credence in the report that the German government will encourage emigration and settlement in Argentine of some five million Germans," said Naon. "The policy of Germany in the matter of emigration was always opposed to propaganda aiming at encouraging nationals to leave the country and settle abroad. I do not think such a policy will be modified in moments like the present. Today, more than ever before, Germany needs the co-operation and the assistance of all her children for the reconstruction of her economic and financial capacity."

"But even admitting that the German government or private German corporations cherish such a plan, I think its execution is equally impossible, because fundamental reasons of national Argentine policy are opposed to it. Argentine cannot admit colonizations favored by foreign governments because this would be highly detrimental to the formation of national sentiment which needs to be fostered, especially in countries in process of formation."

"Nothing that might even remotely cause the formation of a state within a state, could be viewed indifferently by the people of Argentine."

## WINTERSBURG AND SMELTZER

WINTERSBURG AND SMELTZER, July 30.—Kenneth Moore, who has been with his grandmother, Mrs. Barton, who has cared for him since he fell from a tree last week and broke his arm, returned home Sunday. The arm is doing very nicely and no further treatment is necessary with a badly injured foot at the home of his daughter, Mrs. E. M. Fox, as the result of an accident which occurred Saturday while he was cultivating for Will Preston. His right foot slipped into the cultivator and became entangled in it. The horses stopped readily or the injury would doubtless have been of a more serious nature.

Mrs. J. T. Stockton and daughter, Miss Eunice, attended church in Santa Ana Sunday and spent the remainder of the day with friends. During their absence Mrs. Stockton's sister, brother-in-law and nephew, Mr. and Mrs. Dave Johnson and Lloyd Davis, of Whitlitt, drove down unexpectedly for the day and took dinner with Mr. Stockton and drove on to Huntington Beach before their return home in the afternoon.

Mrs. W. L. Slater and children spent the past week tenting at the Huntington Beach camp ground and attended the League Institute. Mr. Slater also took in the evening services, going over every evening and remaining overnight with the family. They returned home at the conclusion of the institute Sunday evening.

Mrs. Dave Sharratt was taken ill the latter part of the week and a physician has been called in to attend her several times. She is reported as being somewhat improved.

Donald Dee, the three-year-old son of Mr. and Mrs. Geo. McGurk, was very ill Monday and continues under the doctor's care.

Mr. and Mrs. J. J. Graham spent Monday in Santa Ana going in on business.

Mrs. W. T. Vandruff entertained as her guest Tuesday, Mrs. Thompson, of Santa Ana.

Mr. and Mrs. A. H. Moore, Mrs. N. E. Dwyer and Miss Ethel Dwyer were among Wintersburg people who attended League Institute at Huntington Beach Sunday.

Mr. and Mrs. Walter Graham were here Saturday from Puente and remained as overnight guests of his parents, Mr. and Mrs. J. J. Graham. Walter Graham has purchased a modern five-room house which he will move into his ranch at Puente and came down for the purpose of seeing a house mover concerning the job.

W. W. Blaylock and D. D. Gardner are planting two acres to celery this week. The crop is on the Stirling Price ranch, one mile and a half west of Bolsa.

Mr. and Mrs. S. T. Burgess and Mr. and Mrs. J. J. Graham drove to Long Beach Sunday.

Mr. and Mrs. Wilfred Lewis, who are enjoying an outing at Big Bear Valley, were at home from Thursday until Sunday, having accompanied Mr. Lewis' father, T. J. Lewis of Santa Ana, home when he came down for a week or ten days' stay.

W. G. Alford and son Russell were in Riverside on a business trip the past week, returning home Saturday. Mrs. Alford's granddaughter, Anna Morgan, stayed with her during their absence. Mr. Alford contemplates returning to Riverside again.

Mrs. Geo. B. Crane is expected home Thursday of this week from Iowa, where she has been on a visit the past two months. A letter telling of her intention to arrive here at that time was received by the family on Monday.

Mr. and Mrs. E. Southern and family were Friday evening visitors at the G. W. Nichols home.

Geo. Crane's daughters, Misses Mary and Phoebe and son S. J. and daughter and son-in-law, Mr. and Mrs. Chas. Graham, picnicked Sunday at Orange County park.

Mrs. Stefanzi has been ill the past

# MAZOLA

## The Perfect oil for Cooking and Dressings

### FOR ECONOMY

**NOT** only better but Mazola goes twice as far as lard and shortenings in deep fat frying. And remember, too, Mazola is the equal of butter in cooking.

**Make this test today with Mazola for PIE CRUST. Follow this recipe and be convinced:**

2 cups Flour  
1/2 cup Mazola  
Pinch of Salt  
Ice Cold Water

Work Mazola well into the flour and salt, add enough ice water to hold together, about one-fourth of a cup; roll crust out at once.

**FREE** A book of 68 pages that gives you the best recipes of the country's leading cooks. Easy to follow. The Corn Products Cook Book is handsomely illustrated—write us today for it.

## BUENA PARK BRIEFS

BUENA PARK, July 31.—Mrs. M. D. McDowell is enjoying a visit with her mother, Mrs. McDowell, from Pasadena.

Dr. and Mrs. Hasson are among those who are attending the G. A. R. encampment at Huntington Beach this week.

Care Miller and Mr. Norris of Fullerton, both enthusiastic fishermen, left Wednesday morning for Bishop, where they will spend a week or two.

Mrs. Cole of Maricopa is visiting Mrs. C. W. Miller this week.

Mrs. A. S. Berkey is visiting friends in Glendale this week.

Miss Florence Schofield is having a delightful visit with her grandparents at Long Beach this week.

The Camp Fire Girls will hold a cooked food sale Saturday at J. W. Bishop's store. The proceeds will go toward their summer outing.

Miss Hester Jaynes is spending this week at Long Beach, where she is the guest of her aunt, Mrs. Stark.

Among the Buena Park people who visited Los Angeles Wednesday were Mrs. R. H. Duncan, Mrs. Campbell, Mrs. Meyer, Mrs. Simpson and Misses Vanita Simpson and Ruth Meyer.

Lawrence Robeson is greatly improved after his recent accident and expects to be at work again this week.

Mr. Macklin and family are moving from the apartment over J. W. Bishop's store into one of Mr. Black's cottages on South Grand avenue.

A Nelson is making some improvements in the "Beanyery."

Mrs. Welcome Mayhew and daughter, Dorothy, returned Monday from Los Angeles, where they visited over the week-end with relatives.

Mr. and Mrs. Smothers and daughter, Martha Marie, spent Sunday in Los Angeles.

Mr. and Mrs. Geo. Goodwin of Garden Grove were calling on old-time friends in Buena Park Monday evening.

## THEY ARE THE DEPENDABLE OF THE EARTH

AMBITION, pride and determination are the characteristic marks of the Thrifty, and the Thrifty are the dependable of the earth. They know that opportunity deals for cash and prepare themselves to meet its call.

Why not open a savings account in this strong, progressive bank, then add to it regularly and be in a position to grasp some of the opportunities that are bound to develop during 1919 and 1920.

This bank invites your confidence, for it can be of service to you in many ways. It is the silent but helpful partner of its savings depositors.

The Strong Home Bank.

**Come to Laguna Beach the Vacation Paradise of Orange County**

Laguna Beach opens her arms and welcomes all of Orange county to spend the summer among her canyons, towering trees and her rock-ribbed coast. Laguna is Orange county's place of rest and scenic wonders. Artists have raved over it, nature lovers have bestowed unlimited praise upon her and raised their hearts in thankfulness for the inspiration she has given them. To those who see with their souls Laguna and Arch Beaches provide boundless satisfaction. Nature calls mightily here and answers the craving of every being who appreciates her wonders and delights in her beauty.

It has grown upon nature lovers from near and far that Laguna has a quaint beauty entirely her own. The shore, for one thing, is wholly unlike other beach shores. It is not long and straight, but rocky and full of turns—"surprises everywhere"—is a slogan artists have given Laguna's shore line. At low tide the gulches, crags and nooks are exposed to full glory. The brief space of gentle sloping beach very quickly reaches the embrace of the ocean through rocky cliffs. San Juan point may be seen in the distance.

**Twenty-two Hundred Visitors**

The Laguna Beach Art Gallery is one of the important institutions of Orange County. Twenty-two hundred people have visited it this month. A fine new exhibition is being hung today. If you haven't visited the Gallery this season don't fail to do so during August. If you have been before of course you will want to come again and bring your friends. Join the Association. It now has two hundred and sixty members. Dues One Dollar per year. Gallery is open daily and Saturday night. Visitors always welcome.

**NEWS FROM WESTMINSTER**

WESTMINSTER, July 31.—Mrs. J. H. Walton, in company with her brother, John Pope and son Fred, and housekeeper Miss Smith, spent Tuesday at Long Beach visiting Mrs. Walton's parents, Mr. and Mrs. Henry Pope.

Mr. and Mrs. Charles Anderson and sons James and Charles Jr., her aunt Mrs. Brecht of Eagle Rock, Mrs. Anderson's sister and family, Mr. and Mrs. Milligan and daughter Blanche of Columbus, Ohio, visited at the H. B. Anderson home as they were on their way to Eagle Rock Saturday, after a week spent at the Chas. Anderson cottage at Laguna Beach.

J. L. Hughes and son Billy started Monday for Bowles, Fresno county, where he took a number of young people for this vicinity to work in the fruit not long ago.

Miss Alberta Baker is enjoying a week's visit from her former school friend, Miss Dorothy Richards of Bell. Miss Alberta will accompany her home for a week's visit.

Charles Parr and family spent Friday afternoon calling on friends in Long Beach.

Mr. and Mrs. Arthur Hughes of Huntington Beach and Mrs. James McPadden were guests Sunday of Mr. and Mrs. Charlie Walton.

Mr. and Mrs. O. C. Hare went to Little Bear Lake Saturday and returning Sunday brought with them Mr. and Mrs. E. A. Hare and Buddy, who have been enjoying a week's vacation there.

Little Wilma McClintock of Garden Grove is visiting her grandparents, Mr. and Mrs. R. E. Larter during the absence of her parents, Mr. and Mrs. Will McClintock and son Jack, who are spending a few days' vacation at Matilija, Ventura county.

Mrs. J. F. Patterson, who accompanied her sister-in-law, Mrs. Mary Carlyle and daughter Virginia to their home in Los Angeles last week, remained for a visit with relatives through this week.

Mrs. Sam Broad of Los Angeles and sister, Miss Hazel Rudd of Spokane, Wash., were guests Saturday at the Benson home.

Lloyd Edwards, who has been at the Anaheim Sanitarium for several weeks, following an operation for appendicitis, was so far improved as to be moved to the home of his parents, Mr. and Mrs. John Edwards, in Santa Ana, Wednesday. It was not thought best for him to come home on account of his two children having the whooping cough, as he had never had it and might run the risk of taking it

in his weakened state.

Mrs. James Kerr spent Sunday and Monday in Los Angeles.

Earl Gardner of Wintersburg is putting in several acres of celery on the Sterling Price ranch. Planting began last week.

Mrs. George Abbott of Huntington Park spent Sunday here with relatives.

Mr. and Mrs. Clyde Day spent Saturday in Los Angeles.

Andrew Mefford and family attended the Baptist church at Huntington Beach Sunday morning. Part of the service was in English and part in the Mexican language.

In a letter received by Miss Opal Stoves from her parents it was stated they expected soon to leave Missouri, where they went by automobile to visit relatives, and go on to Iowa, where Mrs. Stoves will visit her relatives there while Mr. Stoves visits his relatives in Illinois. Later they go to Minnesota, Idaho and Washington before coming home.

Mr. and Mrs. Danforth and daughter went to Pomona Saturday morning, returning Sunday evening. E. F. Stone attended to the chores about the place during their absence.

Geo. E. Francis is having an attack of the jaundice this week.

Miss Leora Blakey has received a card from her cousin, Edgar Veale, in Arizona, stating that his sister, Mrs. Tempie Perry, who had been in the hospital at Prescott, had arrived at her home in Jantha, Missouri, according to a telegram he received

from her husband, who came out to Prescott to take her home. She was also accompanied by her nurse, as she is quite low with tuberculosis, following influenza, and her friends feared she would not live to reach home, where she was very anxious to go.

Her husband arrived in Prescott at 4:39 in the morning and they started for Missouri that night.

Mrs. James Kerr's sister and family, Mr. and Mrs. Davis and son Spencer, and Mr. Davis' grandmother, Mrs. Bailey of Los Angeles, spent three days last week at the Kerr home.

While here one day was spent in visiting Orange County park.

Will Kerr is at the Cozard ranch, near Hemet, working in the apricots for a couple of weeks.

Mrs. H. Small received word from her daughter, Mrs. Frances Ecord of Erie, Nev., that she and Mr. Ecord were taking a trip to Missouri. Mrs. Ecord and the children have visited here several times.

Rev. W. T. Wardle left for Los Angeles Monday. His vacation begins this week, lasting till the last of August. Sunday school and morning preaching service will be held as usual. Christian Endeavor Society meetings will also be held Sunday evening, but the Junior Endeavor on Sunday afternoon will be discontinued through August on account of a number of children having the whooping cough. The prayer meeting will be held on Thursday evening at 8 p. m., the elders taking turns in leading. Rev. F. D. Seward of Los Angeles will preach

next Sunday morning and a supply will be secured for each week of the pastor's absence.

A special service was held at the Mexican Mission, at which a number were baptized. There were present Rev. Coombs, district superintendent of the Mexican mission work, and Rev. Rasmus, Methodist superintendent of this district. The former spoke the Mexican language and the address of the latter was interpreted by one of the Mexican workers.

Rev. Rasmus is much in favor of opening the Methodist church, which is closed at present, to the growing Mexican mission work.

A. D. Skinner is planting about ten acres of corn this week on the ground where he has taken off a crop of barley.

Pedro Luna is making arrangements to open a store early next month in the building formerly occupied by the butcher shop.

Mrs. H. R. Hauser and children spent Tuesday afternoon at Huntington Beach. Mr. Hauser is working at the Collins apricot drying camp in Santa Ana.

Word has been received here that Mr. and Mrs. W. J. Edwards and baby, who left here Wednesday of last week in company with Nelson Edwards and family of Orange, for Oregon, had decided not to go further than San Francisco and were on their way back. They expect to visit several of their married children on the way home.

Several carloads of gravel were received at the depot last week, which were used in putting approaches to the boulevard in good shape.

Mr. and Mrs. Phil McClintock and A. J. Foster attended a meeting of the California Milk Producers' association on Saturday in Los Angeles.

This association has been considering for some time the plan of owning its own distributing plant and at this meeting the vote was practically unanimous to give the directors power to acquire a distributing plant, either by building or by buying one. At present the cost of distributing the milk in Los Angeles is very high, the creamery getting as much as the producer.

Herbert Small and family, who attend church in Santa Ana, brought home with them Sunday, Mrs. Small's sister, Mrs. Dottie Stephenson, for the day. The latter returned Friday from Ontario, Oregon, where she went to be at the bedside of her son, Edward Black, eighteen years of age, who was in the hospital there, following an operation for appendicitis. He lived after the operation on June 19 until July 15, when he passed away. He was buried in Ontario, where he died. Mrs. Stephenson visited a sister-in-law in Idaho for several days before her return to Santa Ana.

Word has been received here that Mr. and Mrs. W. J. Edwards and baby, who left here Wednesday of last week in company with Nelson Edwards and family of Orange, for Oregon, had decided not to go further than San Francisco and were on their way back. They expect to visit several of their married children on the way home.

At present the cost of distributing the milk in Los Angeles is very high, the creamery getting as much as the producer.

representatives of churches in Washington, California, Oregon and Idaho are here today for the sixth annual Missionary Training conference, beginning today and ending August 8th.

The recently organized Interchurch World Movement is in charge of the conference, under the direct supervision of Rev. John Cobb Worley. Similar conferences will be held in six other sections of the United States this summer.

No other way than the Grape-Nuts way can process wheat and barley into such tempting flavor.

## HARPER HAPPENINGS

HARPER, July 31.—Green apples from the various Harper groves are on the market.

Mrs. Bainbridge, former teacher in the Harper school, is spending a season in the neighborhood.

Mrs. Edna Watts Ross of Long Beach has been visiting her mother, Mrs. Fred Watts.

C. A. Wilkinson and W. B. Rochester are making a canvass of citrus fruit districts preparatory for a fumigation campaign in which they will use the Melitt fumigating box.

Fred Bowman, with wife and daughter, from Illinois, are stopping temporarily at Newport Beach, while W. S. Jones, a local carpenter, is building a garage for Mr. Bowman on a five-acre lot on Newport Mesa, adjoining S. W. Clark's place on the north. When the garage is done the Bowman family will move into it and proceed to build a new residence to fully establish a home there. Miss Bowman lately graduated from a Chicago college.

Ernest Armstrong is employed at Palisades Inn as chief cook.

Fred Lawson is having a visit from his brother, of Imperial.

Calvin Lawson, late of Oklahoma, and father of Fred Lawson, has bought a home in Santa Ana.

Fred Bowman is contemplating opening a store when he gets his home well improved.

J. H. Rochester has painted quite artistically a new sign for the W. S. Williamson real estate office.

J. O. Sax, who built a cottage on the boulevard, between 17th and 18th streets, several years ago and then moved to Livingston, Montana, where he established a stationery store, arrived in Harper with his wife and daughter, Alicia, and his nephew, Raymond Ristrom, having driven by auto and camped along the way, passing through Yellowstone Park. They had quite an experience in the park with the wild animals which visit all the campers from whom they expect a handout. So nervous are bears and deer that the campers have to hang their food supplies up in the trees to keep them safe from Bruin. Two young men campers had a ham taken out of the rear end of their wagon by a bear. No one is allowed to fire a gun in the park. For that reason all animals become fearless and tame, also very voracious for grub from the campers. The Sax's are campers near their home, which is occupied by George Vail. They expect to be here two weeks.

Howard Burch and Clarence Jack of Dinuba, California, are camped near the house where their old Oklahoma friend, Fred Long, lives. They drove from Dinuba via the coast road and spent a few days in Santa Barbara, having a successful auto trip all the way.

J. H. Myrehn has concluded to buy a tractor and do some farming, hence has taken off the market the five acres he was offering for sale.

## TUSTIN NEWS

TUSTIN, July 31.—The apricot pitting this week, Jacques Griset's camp, where about twenty-five pitters were busy for two weeks, closed last Friday while others not far away are in full swing this week. A good many workers have responded to the call for pitters and the fruit is being cared for.

The special summer social meeting of the Tustin V. C. T. U. was held last Thursday afternoon at the home of Mrs. L. A. Cock. The regular business session was conducted by the president, Mrs. Sarah Brown. An interesting program in regard to recent legislation on prohibition was conducted by Mrs. Cock after devotional exercises. The ladies enjoyed an especially agreeable social time while being entertained with music on the phonograph, ice cream and wafers were served.

G. W. Pollard had a narrow escape from being burned last Tuesday night when a five-gallon can of gasoline which he was carrying ignited. Half of the barn and some ranch equipment were burned before the fire was extinguished but he escaped without injury.

Mr. and Mrs. Aaron Osmun are spending the week at Newport Beach. Mr. Osmun having just reached home from overseas last week.

Miss Anita Preble, who has taken a position at the Tustin bank, spent the week-end with Miss Mina Ellis in Los Angeles.

Mr. and Mrs. E. E. Smith spent the week-end at San Diego with their daughter, Mrs. Durlin Flagg.

Justice H. W. Smith returned Sunday from a short trip to San Diego to find that his brother, L. A. Smith, in Santa Ana, had passed away. L. A. Smith came to Santa Ana about two months ago from Mesa, Ariz., and bought a home on East Sixth street.

Mr. and Mrs. Tom Cook were visiting friends in Tustin on Monday. Howard Cook, Mr. and Mrs. Gus Egger and Mr. and Mrs. Ed Robinson are taking a vacation trip to the Hetch Hetchy valley.

Mrs. J. M. Green left yesterday for a visit to Oxnard and Ventura.

Miss Belle Wolford of Portland, Ore., was a guest of Miss Catherine Beck on Monday.

Mrs. Millie Romer is spending several weeks with Mrs. Fred Beckman and Mrs. Harry Peipper. The family enjoyed the day Sunday at Ocean Park with friends from Cincinnati.

Mrs. Harriet Gregg of Los Angeles, Miss Kate Schultz and Miss Beulah Coates of Pasadena were visitors at the home of Mr. and Mrs. A. D. Turner several days last week.

Mr. and Mrs. L. I. Cook of Jackson, Miss., are guests of Mr. Cook's brother, L. A. Cook. Mr. Cook is division manager of the Valley and Spies Milling Company, St. Louis, Mo. They expect to spend a year in California.

Professor and Mrs. C. E. Copeland of San Jose have been a guest of Mr. and Mrs. Nicholas Jones and returned home last Thursday.

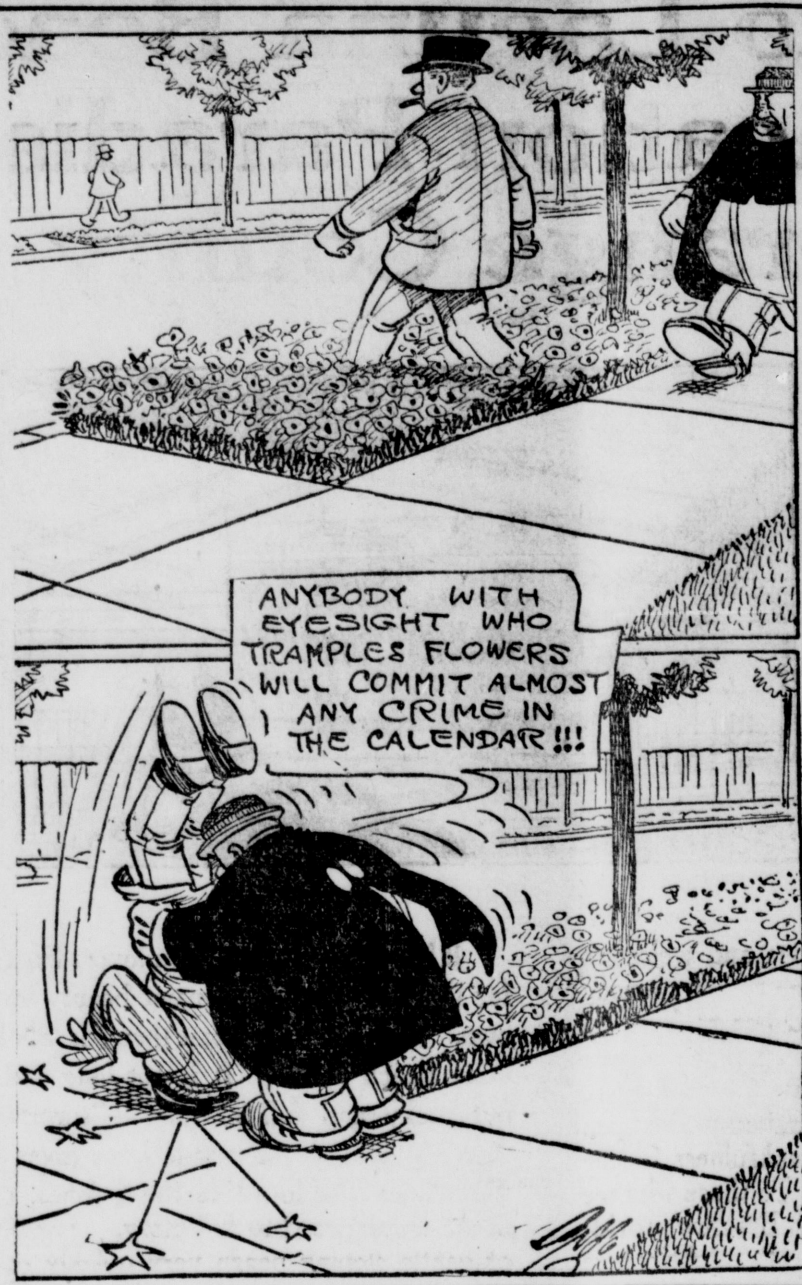

Mr. and Mrs. Claude Norton and children are soon to take a vacation trip up the coast.

## THE TIDES

# News from Orange County Towns

## BIG FILM 'LINER' ALMOST DRIVEN ON BEACH

### Little Launch Wins Hard Battle; Phoney Craft To Be Wrecked

NEWPORT BEACH, July 31.—The dummy ship was completed at East Newport by the Fox Film Company this week, and on Tuesday the big "ocean liner" got up steam and slid from the ways into the waters of Newport Harbor and was towed out through the channel by two powerful tugboats and onto the bosom of the mighty deep.

The entire work of constructing the big "phoney" trans-Pacific liner from the bringing in of 80,000 feet of lumber on a barge from San Pedro, to completion of the picture, has been in the hands of Capt. John P. Norton, one of the local Balboa boys, and formerly of the Jackson-Norton Company. The carpenter foreman who had charge of the construction work is L. K. Harper of Los Angeles.

Six weeks ago the lumber and barge was towed into the bay from San Pedro and a camp pitched at East Newport, near the Lancaster residence, camping accommodations being provided for twenty-five men, who have been working on the set continually until it was completed. The elaborate water setting is constructed on a barge 50 feet wide and 125 feet long. The imitation liner itself is 110 feet in length, 50-foot beam and the highest part 61 feet above the water line. It required 80,000 feet of lumber to build and the cost of construction alone was \$15,000.

The hurricane deck is 30 feet above the water line and is an exact duplicate in every detail of an ocean-going ship, being equipped with genuine steamer chairs. The smoke stack is elliptical in shape and 9 feet across the widest part and 54 feet above the water line. Every smallest detail has been faithfully worked out to correspond to a vessel of the Pacific-Occidental type, supposedly of East India, the name used by the movie people being "Sirdar," and carefully lettered above the hurricane deck.

**Real Life Boats**  
On the upper deck, genuine life boats have been installed with facilities for lowering them into the water while at sea, and a full equipment of life preservers is aboard.  
The title of the picture which is being produced is "The Wings of the Morning," and will be from five to eight reels, a large part of which will be taken at sea. William Farnum and Miss Louise Lovely are the stars in the picture and the entire personnel consists of 125 people. The directing is being done by J. Gordon Edwards, assisted by Al Smith.

After several days of delightful ocean voyage, a storm brewed by six airplane engines installed aft on the barge, will toss the ill-fated liner about on the angry sea, and the passengers or in frenzied despair leap overboard to be swallowed up by the storm-tossed mountains of water. The great liner, struck a mortal blow by her ruthless foe, shudders from bow to stern, and her rudder gone, her engines rendered useless, she is tossed about at the mercy of her irresistible antagonist. True to the traditions of the sea, her men stick to their posts, but are unable to alter the fatal course, which is directly toward the dangerous reefs of a strange coast. In a grand final orgy of destruction, the great liner is shattered upon the jagged rocks, which in this particular instance will be at Abalone Point, a few miles down the coast from Newport Beach.

**Watched by Visitors**  
The setting rode the waves majestically as she sailed forth and furnished an inspiring sight to the many visitors here as she was seen several miles from shore, and gradually approached the government mooring out beyond the Southern Pacific wharf at Newport, where she was to anchor for the night. But a strong breeze was blowing from a westerly direction and the strain on the moorings was too much and the "Sirdar" broke loose from her lines and for a while it seemed that she would be wrecked on the beach. The "J. & L." owned by A. E. Dixon and boys, Louis and Joe, had a line on her in case of just such an emergency, and when the anchor broke, the staunch little launch had the battle of her life to keep the big setting from going to shore. Like an ant tugging at an elephant, the gallant crew of the "J. & L." kept "full steam ahead" until the wind died down and the danger was over.

A large crowd gathered on the pier and witnessed the fight, but the sturdy Dixon launch hung like a leech and won. When it seemed that the little craft could not possibly hold against the rising wind, Louis Dixon climbed into a dory and started for shore to get help, but just as he crossed the tow line a big swell raised the tow rope and the dory was upset and the occupant had to swim ashore.

The sidewheeler "Limit" is being used by the Fox people as a camera boat in taking a number of the scenes out at sea. Just what day the big setting will be wrecked is not known, but it will probably be the latter part of the week.

## ORANGE PERSONALS AND NEWS NOTES

ORANGE, July 31.—Members of the Ladies' Birthday Club and their guests had a delightful time when the club gave its annual picnic at the county park.

Shortly after arriving at the park, steaks were baked and a delicious picnic dinner was spread under the oaks. Later, members of the party took possession of the swings and also had a jolly time on the toboggan slide.

Those who enjoyed the outing were Mrs. Mary Jackson, Mrs. Ross and children of Santa Barbara, Mrs. Eliza Griswold, Mrs. Oscar Sherman, Mrs. Theo. Starkey, Mrs. Allie Allison, Mr. and Mrs. Geo. Peterson and son, Rev. and Mrs. W. H. Galbraith and three children, Mrs. Claud Porter and Mrs. E. S. Reavis.

Rev. H. M. Moore and family of Denair, who are spending a few weeks at Laguna Beach, were pleasantly surprised by a party of friends who motored down to the beach. Rev. Moore was formerly the pastor of the El Modena church. The guests furnished a delightful picnic lunch. Those participating were the L. W. Evans family, Miss Lulu Evans, Mrs. Martha Taylor, Judge Short and family, W. S. Crist and family, J. Stone and family, and Mrs. G. Stone, George Dollard and family, Mrs. George Carlton, the Misses Esther and Helen Saworth, Arthur Hodson, Morris Stanfield, Oscar Stanfield and family, Alvin Stanfield and family, Mrs. John Spotts and son Clyde, and daughter, Edna, of Hemet.

Tuesday the Daisy class of the M. E. church spent a pleasant evening with a wiener bake at the creek. After the delightful supper they took a short hike. Those enjoying the affair were the Misses Esther Nevill, Grace Bennett, Margaret Hardcastle, Emma Prince, Esther Hare, Verl Boyer, Lela McDanel, Florence Riddle, Elmorene McPherson, Lucile Brunton and Lois Meyer.

Corporal A. Sauer has arrived in New Jersey, according to news received from him by his parents, Mr. and Mrs. C. F. Sauer here. He made a splendid record in the army, and was promoted rapidly.

Mrs. Willis and son of Colton, who recently purchased the Reise Williams residence, have taken possession. The rest of the family will join them later.

G. R. Johnstone and daughter, Leta of Hollywood, are spending a few days with the W. P. Reed family. Mr. Johnstone was formerly the principal of the Orange Union high school.

Word has been received by Mr. and Mrs. J. C. Wallace that their son, Lew, has arrived in New York and will be home soon.

Vern L. House is erecting a new home near El Modena and will occupy it soon.

William Krueger is building a new home in McPherson which he and his family will occupy soon.

Mr. and Mrs. Herbert Preston are building a new home east of El Modena and will move into it soon.

## IMPROVED MAIL SERVICE IS WANTED

### Huntington Beach Chamber of Commerce After Postal Car

HUNTINGTON BEACH, July 31.—At the regular monthly meeting of the Chamber of Commerce Monday evening among the committee reports there was one relative to having a regular mail car in the near future on the P. E. Los Angeles to Balboa, and also an extra mail to leave Huntington Beach at 6:18 P. M., all of which will give the citizens a very much improved and long desired mail service.

The next move should be to obtain a much better mail service with Santa Ana. As conditions now exist there is no chance to get return mail from our county seat the same day and still only fourteen miles away. The Chamber went on record favoring the vigorous investigation for the betterment of the water system in the city and stands ready to help the city council in any way possible for a speedy adjustment of any and all difficulties that now exist.

Judge Copeland introduced a resolution relative to increased modern cottages and apartment houses for better accommodation of the many tourists that are coming to this city during all seasons of the year, for our beach is not a summer resort only, as many come here to spend the winter as well.

The great Pacific fleet is now on its way north and it is expected to pass Huntington Beach about noon on August 9th, as it is due at San Pedro at 2 P. M. of that day. Some ten years ago when the fleet of twenty odd warships sailed around Cape Horn and passed north there were about fifteen thousand people who viewed it from the bluff along the ocean here.

The Southern California Veterans opened their ten days' session here Tuesday evening with a splendid program by the local W. R. C. to a crowded house. Next Tuesday evening will be pay night, that is, every one will have to pay 25¢ to get in, which is the method the Veterans have in defraying their general expenses. The entertainment they give is well worth the price.

Next Tuesday the ladies of the M. E. church have planned on serving dinner cafeteria style in order to help defray the great crowd that usually attends the encampment on "Bean Day." This dinner will be served at the parlors of the church.

G. V. Thomas and wife of Escondido, spent a few days' vacation here, returning home Tuesday. Mr. Thomas made a business trip to Los Angeles Monday.

"Pops" juvenile band did themselves proud at the encampment Tuesday evening, while the little Miss Nellie Olson captured the laurels of the occasion.

John DeLong made a business trip to Los Angeles Wednesday. He and John Adair spent the day fishing at Newport Tuesday, landing a good many shark but not many fish.

The Arbamar tents were all filled during the first day of the Veteran encampment which indicates that the largest camp in recent years is now on.

## NEW FULLERTON BANK TO OPEN IN 60 DAYS

### Smith Family Buys Masonic Building For Location of Financial Institution

FULLERTON, July 31.—The purchase of the Masonic building at the corner of Spadra and Amerige avenues will result in a bank with a capital of \$50,000 opening within sixty days, which will be the latest addition to the large financial institutions of Fullerton.

Details of the purchase, which have been under consideration for the past ten days, have just been completed. The new owners, five Smiths, composed of father, three sons and a nephew, became owners of the building, the consideration being \$35,000.

The building is a two-story brick with a frontage of fifty feet on Spadra and 130 feet on Amerige avenue. The tenants at present are the Curtis Cash store, the Fullerton Department store and the Baldwin Junk store.

The two latter will not be disturbed, the department store lease has some two and a half years yet to run, and the junk store has seven months.

The lease of Curtis, which has two and a half years yet to run, was purchased and he has been given thirty days in which to vacate. Curtis will dispose of his stock as soon as possible, probably within two weeks, and retire from business and take a year's rest before deciding where he will again locate.

Just as soon as Curtis vacates, the building will be remodeled, plans having already been decided upon by the new owners. A partition will be put in separating the bank from the department store. New vaults will be constructed and the front remodeled.

The Masons will occupy the front room on the second floor until their new building is completed, when this room will be made over into apartments. The new owners come into possession immediately of the second floor over the junk store at the rear and will immediately fit it up as a rooming house, which will serve to relieve the congested condition prevailing regarding sleeping accommodations.

The Smiths were interested in California banks, S. W. Smith being manager of the Capital National Bank at Sacramento for several years. They decided to start a bank of their own and took an auto trip through the state looking for a location. They visited a large number of cities and finally arrived in Fullerton. They were so impressed with the resources and prosperous condition of this city and community that they decided not to look further.

They immediately made inquiries with the result that they purchased the McDermott building at the southwest corner of Spadra and Amerige avenues for their bank site. This was last January. There was a lease on the building which did not expire until the first of the present month. In the meantime they had nothing to do but travel about and enjoy life, waiting for the lease to expire.

S. W. Smith moved here with his family in preparation for opening the bank, when he learned that the Masonic building was for sale, and com-

## MASONSTO SPEND \$60,000 ON NEW BUILDING

### Will Erect Handsome Temple at Spadra and Chapman, Fullerton

FULLERTON, July 31.—Ground will be broken soon in Fullerton for what will probably be the handsomest Masonic Temple in the state. Plans for the new structure, which have been under consideration for some time past, will be speeded up now since the Masonic bodies have disposed of their present temple and will soon be without a home.

The new building will cost in the neighborhood of \$60,000 and will be located on the northwest corner of Spadra and Chapman avenues, this tract recently having been acquired by the Masons at a cost of \$9,000. It is expected that by the time the temple is completed it will mean an investment of probably \$75,000.

The new temple will be 100x100 feet in size and two stories. It will be constructed of terra cotta and the Spanish Colonial style of architecture will prevail along the lines adopted at a meeting recently of the civic planning committee, which was attended by representatives of the board of trade, city trustees, Masons, Christian Scientists, Ebell Club and others.

The new home will be richly and elaborately furnished throughout with an equipment that is the last word in Masonic furnishings. The site selected is one of the most beautiful in the city and will be a wonderful improvement to North Spadra.

For the Relief of Rheumatic Pains.

When you have stiffness and soreness of the muscles, aching joints and find it difficult to move without pain try massaging the affected parts with Chamberlain's Liniment. It will relieve the pain and make rest and sleep possible.—Advertisement.

communicated this fact to other members of the family with the result that they decided to purchase it and place their bank there, not disturbing the tenant of the other building.

The family consists of L. H. Smith, his three sons, Dan, Emanuel and W. A. Smith, and S. W. Smith, a nephew and cousin.

S. W. Smith will be cashier of the new bank and will be assisted by Emanuel. L. H. Smith will be president. He resides at Ontario, where he has large interests.

This family has already invested \$55,000 in the two buildings in the city and with the opening of their bank will be important factors in the development of the city and community. "After traveling up and down the state several times looking for a location, we chose Fullerton as the best community, not only from a business standpoint but as a place to make our home," said S. W. Smith, "and I am glad that the deal is finally closed and we can get busy. I have the charter all ready and will file it immediately. Then as soon as Mr. Curtis can vacate things will move rapidly and I expect to have the bank open and ready for business in sixty days at least."
